Summary of Industry

Introduction

India is one of the top producers of a large numbers of commodities, and also has a long history of trading in commodities and related derivatives. The commodities derivatives market has seen ups and downs, but seems to have finally arrived now. The market has made growth enormous in terms of technology, transparency and the trading activity. Interestingly, this has happened only after the government protection was removed from a number of the commodities, and the market forces were allowed to play their role. This should act as a major lesson for the policy makers in developing countries, that pricing and price risk management should be left to market forces rather.

India can be among the top five exporters of Agro-commodities by shifting its focus on cultivation and effectively handholding farmers, according to the World Trade Centre. The total agricultural and allied products exports stood

at US\$ 41.25 billion in FY21. The principal commodities that posted significant positive growth in exports between FY20 and FY21 were the following:

- Wheat and Other Cereals: 727% from Rs. 3,708 crore (US\$ 505 million) to Rs. 5,860 crore (US\$ 799 million)
- Non-Basmati Rice: 132% from Rs. 13,130 crore (US\$ 1,789) to Rs. 30,277 crore (US\$ 4,126 million)
- Soya Meal: 132% from Rs. 3,087 crore (US\$ 421 million) to Rs. 7,224 crore (US\$ 984 million)
- Raw Cotton: 68% from Rs. 6,771 crore (US\$ 923 million) to Rs. 11,373 crore (US\$ 1,550 million)
- Sugar: 39.6% from Rs. 12,226 crore (US\$ 1,666 million) to Rs. 17,072 crore (US\$ 2,327 million)
- Spices: 11.5% from Rs. 23,562 crore (US\$ 3,211 million) to Rs. 26,257 crore (US\$ 3,578 million)
- The Agriculture Export Policy, 2018 aimed to increase India’s agricultural export to Rs. 4,19,340 crore (US\$ 60 billion) by 2022. Government aims to raise fishery export from India to Rs. 1 lakh crore (US\$ 14.31 billion) by 2024-25.

In 2021, India witnessed growth in agriculture product exports:

- In June 2021, India exported 24 metric tonnes of groundnuts to Nepal from West Bengal, boosting groundnut exports from Eastern India.
- In FY21, India exported 1.91 lakh tonnes of banana worth Rs. 619 crore (US\$ 82.90 million).

#Directors and Promoters are party to the suits involving the Company and the amounts involved in such litigation are covered in the summary of "Litigation involving our Company". At this juncture we are unable to determine whether any liability will arise on the Directors or Promoters.

We may be required to devote management and financial resources in the defence or prosecution of such legal proceedings. Should any new developments arise, including a change in Indian laws or rulings against us by the appellate courts or tribunals, we may face losses and we may have to make further provisions in our financial statements, which could increase our expenses and our liabilities. Decisions in such proceedings, adverse to our interests, may have a material adverse effect on our business, cash flows, financial condition, and results of operations. Failure to successfully defend these or other claims, or if our current provisions prove to be inadequate, our business and results of operations could be adversely affected. Even if we are successful in defending such cases, we will be subject to legal and other costs relating to defending such litigation, and such costs could be substantial. In addition, we cannot assure you that similar proceedings will not be initiated in the future. Any adverse order or direction in these cases by the concerned authorities, even though not quantifiable, may have an adverse effect on our reputation, brand, business, results of operations and financial condition. For further details, please refer to "**Outstanding Litigations and Defaults**" on page 155 of this Draft Letter of Offer."

- Our Company's business operations are done throughout the globe and any downturn and/ or any economic, regulatory, social and political change in the global markets in which we operate or seek to operate may affect our market share and/ or may adversely affect our business, financial condition and results of operations.***

Our products are sold within Indian markets and International markets like USA, Asia Continental, Africa Region, Far East Asia, Europe Australia and Middle East. For details, please refer to "**Our Business Overview-product wise and location wise sales as derived from the Audited Consolidated Financial Statements for FY 2021-22**", on page no. 74 of the Draft Letter of Offer. Thus, the sales of the Company are widely dispersed throughout the globe and any failure to maintain such dispersion may impact sales, revenues, and consequently, the financial performance of the Company. Further, any failure in expanding our geographical presence in the International market may lead to loss of opportunity in earning higher revenue thereby effect our growth and profit in the Company.

Further, our business is also subject to diverse and constantly changing economic, regulatory, social and political conditions in the jurisdictions in which we operate and seek to operate. Operating in the international market exposes us to a number of risks, including, but not limited to, compliance with local laws and regulations, which can be onerous and costly as the magnitude and complexity of, and continual amendments to, those laws and regulations are difficult to keep abreast with and the liabilities, penalties, costs, obligations and requirements associated with these laws and regulations can be substantial. Our failure to comply with and adapt to changing international regulations and/or trends may result in us failing to maintain and/or expand our international sales operations, which could adversely affect our business, financial condition and results of operations.

In case of any contingencies in the future, due to which we are unable to operate effectively in these markets, our results of operations, revenues and profitability may be adversely affected. Due to this, we may not be able to expand our business effectively in the international market, thereby affecting our business, results of operations and financial condition.

- 3. The export / import of certain agricultural produce and commodities are subject to seasonal factors. Our inability to accurately forecast demand for the agro commodities that we trade, may have an adverse effect on our business, results of operations, cash flows and financial condition.***

The business of trading in the agricultural produce and commodities are subject to seasonal factors. Rice, wheat, corn, sugar and pulses are the major commodities, in which our company deals and are exposed to seasonal risk. This is due to the fact that majority of the farmers depend on rain for cultivation. Generally, rainfall occurs during Kharif season and hence, the timing and seasonality of rainfall impacts the export operations of our Company. Thus, we are subject to seasonal factors, which make our operating results relatively unpredictable. Due to dependency on seasonality of agro crops, results of one reporting period (quarter/half year/year) may not be necessarily comparable with preceding or succeeding reporting periods. We are impacted by seasonal variations in sales volumes, which may cause our revenues to vary significantly between different quarters in a Fiscal.

Further, each of the agricultural produce and commodities has a specific shelf life and if not sold prior to expiry, it may lead to losses. We cannot assure you that we will be able to sell surplus stock in a timely manner, or at all, which in turn may adversely affect our business, results of operations, future cash flows and financial condition.

- 4. We are dependent upon the pricing and continued supply of products. Any shortage in supply, or increase in the price including the taxes and levies of the products could have adverse impact on our Company's business, financial condition and profitability.***

Our major products include Agro based products. The timely availability, cost and quality of these products being supplied to us plays an important role in building strong foundation for our business operations and client retention and/ or acquisitions. If any disruption is there in either of the factors mentioned above which are not under our control, including general economic conditions, competition, production levels, transportation costs, government taxes and levies, and import-export duties and if, for any reason, our regular/primary suppliers refuse or delay or discontinue the delivery of all or certain products to us in the quantities we need and at prices that are competitive, our ability to meet our order requirements shall come to a temporary standstill and our delivery schedules could be disrupted, and we may not be able to complete and execute our projects as per schedule or at estimated costs. Further, we may also not be able to pass on any increase in the prices of these products to our customers which could affect our results of operations and impact our financial condition.

Further, we currently do not have any long term tie-ups or agreements for supply of any of products and this may expose us to the changes in the prices of agro commodity products. The increase in prices of the products increases our expenditure hence our profitability if we are not able to pass the expenses on to our customers. Any decrease in the availability of these products for whatever reason, could adversely affect our execution capacity and profitability.

- 5. Any failure in our quality control and procurement processes may adversely affect our business, results of operations and financial condition. We may face product liability claims and legal proceedings if the quality of our products does not meet our customers' expectations.***

Our agricultural produce and commodities may suffer from certain quality issues due to inadvertent lapses in procurement leading to purchase of low-quality agricultural commodities. Further the agricultural commodities may also deteriorate in quality or decay during transit. We believe that we have implemented quality control processes for our agricultural produce and commodities that we trade in, on the basis of internal and international quality standards. We are engaged in export operations and have to fulfill the quality conditions and processes prescribed by the importing jurisdictions. However, we cannot assure you that our quality control processes or our agricultural produce and commodities will pass the quality tests and inspections conducted by various international and domestic agencies as per their prescribed standards. It is imperative for us to meet the international quality standards set by our international customers and agencies as deviation from the same can

cause them to reject our products and can also cause damage to our reputation, market standing and brand value. There was no failure of quality control in the last three fiscal and no consequent impact on the financials of the Company.

In the event the quality of our agricultural products and commodities are sub-standard or the agricultural produce and commodities suffer from defects and are returned by our customers due to quality complaints, we might be compelled to take back the sub-standard agricultural produce and commodities and reimburse the cost paid by our customers. Such quality lapses could strain our longstanding relationship with our domestic and international customers and our reputation and brand image may suffer, which in turn may adversely affect our business, results of operations and financial condition. Our customers may lose faith in the quality of our agricultural produce and commodities and could in turn refuse to further deal in our products, which could have a severe impact on our revenue and business operations. We also face the risk of legal proceedings and product liability claims being brought against us by our customers for low quality agricultural produce and commodities sold. We cannot assure you that we will not experience any material product liability losses in the future or that we will not incur significant costs to defend any such claims. A product liability claim may adversely affect our reputation and brand image, as well as entail significant costs.

6. *Our registered office and branch offices are on leased/ rented premises and lease & license agreement have been executed for the same. Any termination or dispute in relation to these lease/ rental agreement may have an adverse effect on our business operations and results thereof.*

Our Registered office situated at Aarus Chamber, A 301-302, Near Mahindra Tower, S S Amrutwar Lane, Worli-400013, Mumbai, Maharashtra, India is a leased premises. The said property is owned by 2 of our Promoters, namely Ms. Kusum Chander Mohan Malhotra and Sakuma Infrastructure And Realty Private Limited. Our Company has entered into an agreement with them for leasing the same premises for a period of 5 years w.e.f. 01-07-2020. For details, please refer to “***Our Business Overview- our properties***” page no. 79 of this DLOF. Our business operations are also conducted from the said premises. As per the lease agreement if there are any non-compliance by us in relation to any term of lease, lease fee and any other terms and conditions, the lease may result in the termination of the lease agreement and consequently we have to vacate the said premises. We also cannot assure you that lessor will not terminate the lease agreement, which would require us to locate to another premise and may have an adverse effect on our conducting our business operations.

Further, our branch offices are situated in Andhra Pradesh, Gujarat, Rajasthan, Tamil Nadu, Telangana, West Bengal which are leased premises. For details, please refer to “***Our Business Overview- our properties***” page no. 79 of this DLOF. Our local business operations for the regions mentioned above are also conducted from the said premises. As per the lease agreements, if there are any non-compliance by us in relation to any term of lease, lease fee and any other terms and conditions; it may result in the termination of the lease agreement and consequently we may have to vacate the said premises. We also cannot assure you that lessor will not terminate the lease agreement, which would require us to locate to another premise and may have an adverse effect on our conducting our business operations. In case, we may have to re-locate to another premise and/or agree to pay the extra amount for using the same prices. Increase in lease structure will lead to increase of our expenditure which in turn may affect our revenue and increase of operational cost. Also, searching for the suitable location, setting the branch from the scratch and relocating the inventory from location to another, may lead to loss of clients, reduction in sales thereby affecting our profitability.

7. *Our Company is dependent on third party transportation providers for the delivery of our goods and any disruption in their operations or a decrease in the quality of their services could affect our Company's reputation and results of operations.*

Our Company uses third party transportation providers for delivery of our goods. Though our business has not experienced any disruptions due to transportation strikes in the past, any future transportation strikes may have an adverse effect on our business. In addition, goods may be lost or damaged in transit for various reasons including occurrence of accidents or natural disasters. There may also be delay in delivery of products which may also affect our business and results of operation negatively. An increase in the freight costs or unavailability of freight for transportation of our raw materials may have an adverse effect on our business and results of operations. Further, disruptions of transportation services due to weather-related problems, strikes, lock-outs, inadequacies in the road and water infrastructure, or other events could impair ability to procure raw

materials on time. Any such disruptions could materially and adversely affect our business, financial condition and results of operations

8. Any inability to protect our intellectual property or any claims that we infringe on the intellectual property rights of others could have a material adverse effect on us.

As on the date of filing this Draft Letter of Offer, we have 1 trademark Registered under the provisions of the Trade Marks Act, 1999. For details please refer to page no. 80 of the Draft Letter of Offer. We cannot assure that third parties will not infringe on our intellectual property, thereby causing damage to our business prospects, reputation and goodwill. Our efforts to protect our intellectual property may not be adequate and any third party claim on any of our unprotected brands may lead to erosion of our business value and our operations could be adversely affected. We may need to litigate in order to determine the validity of such claims and the scope of the proprietary rights of others. Any such litigation could be time consuming and costly, and a favourable outcome cannot be guaranteed. We may not be able to detect any unauthorised use or take appropriate and timely steps to enforce or protect our intellectual property.

9. Our Company has reported negative cash flow from operating and investing activities in the past. Any negative cash flows in the future would adversely affect our cash flow requirements, which may adversely affect our ability to operate our business and implement our growth plans, thereby affecting our financial condition.

The following table sets forth our cash flow for the periods indicated:

Particulars	(Rs. in Lakhs)	
	As on 31-12-2022 (Unaudited)	FY 2021-2022 (Audited)
Net cash from (used in) Operating activities	(4757.83)	(5742.47)

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet its capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If we are not able to generate sufficient cash flow, it may adversely affect our business and financial operations. For further details, refer “*Consolidated Statement of Cash Flows for the year ended March 31, 2022*” on page no. 102 in the section titled “*Financial Information*” on page no. 84 of this Draft Letter of Offer.

There are no non-compete agreements between our Company and Promoter Group Entities and/ Promoter Group Members. However, we cannot assure that our Promoter and Promoter Group members will not favour the interests of such entities over our interest or that the said entities will not expand which may increase our competition and may adversely affect business operations and financial condition of our Company.

Retail Mart Private, GK Exim FZE, Sakuma Exim DMCC, Sakuma Exports PTE Limited, Sakuma Exports (Ghana) Ltd and Sakuma Exports Tanzania Pvt. Ltd., Limited are engaged in same or similar line of business as that of our Company. We have not entered into any non- compete agreement with such entities. We cannot assure that our Promoter/ Promoter Group who has common interest in such entities will not favour the interest of such entities. As a result, conflicts of interests may arise on account of common suppliers/ customers and in allocating business opportunities amongst our Company and such entities in circumstances where our respective interests diverge.

Any such present and future conflicts could have a material adverse effect on our reputation, business, results of operations and financial condition which may adversely affect our profitability and results of operations. We cannot assure you that these or other conflicts of interest, in the event such conflicts arise, will be resolved in an impartial manner.

Further, some of our group companies and subsidiary companies have incurred loss in the past. The details of the loss incurred by group companies and subsidiary company in last three fiscals are as under:

There can be no assurance that our subsidiary companies will not incur losses in the future, which may have an adverse effect on our reputation and business.

11. Our lenders have imposed certain restrictive covenants on us under our financing arrangements. This may limit our ability to pursue our business and limit our flexibility in planning for, or reacting to, changes in our business or industry.

The financing arrangements entered into by us include conditions that require our Company to obtain respective lenders' consent prior to carrying out certain activities and entering into certain transactions. As of December 31, 2022, we had outstanding indebtedness of Rs. 13,227.75 Lakhs (consists of borrowings under non-current liabilities and borrowings under current liabilities). For details on our borrowings, please refer Note 18 and 21 on 'borrowings' on page no. 120 of the Draft Letter of Offer and see "**Management's Discussion and Analysis of Financial Condition and Results of Operations- Financial Indebtedness**" on page no. 151 of the Draft Letter of Offer. Further for the process of this Issue, our company has obtained the consent from the respective lender. Failure to meet these conditions or obtain these consents could have significant consequences on our business and operations. These covenants vary depending on the requirements of the financial institution extending such loan and the conditions negotiated under each financing agreement. Some of the corporate actions that require prior consents from certain lenders include, amongst others, (a) permit any change in the ownership/ control/ management/ shareholding (including by pledge of promoter/ sponsor shareholding in the borrower to any third party), and (b) wind up, liquidate or dissolve its affairs or take any steps for its voluntary winding up or liquidation or dissolution. While we have received all relevant consents required for the purposes of this Issue and have complied with these covenants, a failure to comply with such covenants in the future may restrict or delay certain actions or initiatives that we may propose to take from time to time. While we have not defaulted on any covenants in financing agreements in the past, we cannot assure you that this will continue to be the case in the future.

A failure to observe the covenants under our financing arrangements or to obtain necessary consents/ waivers, constitute defaults under the relevant financing agreements and will entitle the respective lenders to declare a default against us and enforce remedies under the terms of the financing agreements, that include, among others, acceleration of amounts due under such facilities, enforcement of any security interest created under the financing agreements and taking possession of the assets given as security in respect of the financing agreements. If the obligations under any of our financing documents are accelerated, we may have to dedicate a portion of our cash flow from operations to make payments under such financing documents, thereby reducing the availability of cash for our working capital requirements and other general corporate purposes. In addition, during any period in which we are in default, we may be unable to raise, or face difficulties raising, further financing. For details on our borrowings, please refer Note 18 and 21 on 'borrowings' on page no. 120 of the Draft Letter of Offer and see "**Management's Discussion and Analysis of Financial Condition and Results of Operations- Financial Indebtedness**" on page no. 151 of the Draft Letter of Offer.

12. Our Company has availed and may continue to avail in the future certain unsecured loans which maybe recalled by our lenders at any time.

As of December 31, 2022, our Company has unsecured loans amounting to Rs. 2,517.93 Lakhs and may continue to avail unsecured loans, which may be recalled at any time, with or without the existence of an event of default, on short or no notice. Such recalls on borrowed amounts may be contingent upon happening of an event beyond our control and there can be no assurance that we will be able to persuade our lender to give us extensions or to refrain from exercising such recalls, which may adversely affect our results of operations and cash flows. For details on our borrowings, please refer Note 18 and 21 on ‘borrowings’ on page no. 120 of the Draft Letter of Offer and see “*Management’s Discussion and Analysis of Financial Condition and Results of Operations- Financial Indebtedness*” on page no. 151 of the Draft Letter of Offer.

13. We have in the past entered into related party transactions and may continue to do so in the future, which may potentially involve conflicts of interest with the equity shareholders.

We have entered into related party transactions with our Promoters, Group Companies, Promoter group members. For details on related party transactions for FY 2022, see note 39 on page no. 129 of the Draft Letter of Offer

We cannot assure you that we will be able to maintain the terms of such transactions or in the event that we enter future transactions with related parties, that the terms of the transactions will be favourable to us. Additionally, while it is our belief that all our related party transactions have been conducted on an arm’s-length basis, we cannot provide assurance that we could have achieved more favourable terms had such transactions been entered with third parties. We may also enter related party transactions in the future, which could involve conflicts of interest, although going forward, all related party transactions that we may enter will be subject to audit committee or board or shareholder approval, as applicable, as under the Companies Act, 2013 and the SEBI (LODR) Regulations. As such, we can provide no assurance that these transactions will not adversely affect our business, results of operation, cash flows and financial condition.

14. We face foreign exchange risks that could adversely affect our results of operations.

Our Company is subject to foreign exchange control regulations which can pose a risk of currency fluctuations. Our Company is involved in various business transactions with international clients and has to undertake the business transactions in accordance with the rules and regulations prescribed under FEMA. Due to non-receipt of payments from our international clients in a timely manner, our Company may fail to adhere to the prescribed timelines and may be required to pay penalty to the appropriate authority or department to regularize the payment. Further, our international operations make us susceptible to the risk of currency fluctuations, which may directly affect our operating results. In case we are unable to adhere to the timelines prescribed under the applicable laws or are unable to mitigate the risk of currency fluctuation, it could adversely affect our business, results of operations, financial conditions and cash flows.

15. Any increase in or realization of our commitments and contingent liabilities could have a material adverse effect on our business, financial condition, cash flows, results of operations and prospect.

As on March 31, 2022 (based on the Audited Consolidated Financial Information) and as on December 31, 2022 (based on limited review report for 9 months), we had the following Contingent Liabilities:

Particulars	(Rs. In Lakhs)	
	As on 31-12-2022 (Unaudited)	FY 2021-22 (Audited)
Direct and indirect taxation matters		
TDS Default	10.00	0.31
Income Tax	1314.00	1494.02
Sales Tax	803.84	803.84
Claims against the company not acknowledged as debts	3345.86	10.97
Claim by the Company not acknowledged as Income	(4917.43)	-

For details regarding our contingent liabilities for FY 2022, please refer to note 37 on page no. 128 of the Draft Letter of Offer and Offer and see “*Management’s Discussion and Analysis of Financial Condition and Results of Operations- Contingent Liabilities*” on page no. 152 of the Draft Letter of Offer.

16. *We depend on the success of our relationships with our customers. Our revenue is generated from certain of our key customers, and the loss of one or more such customers, the deterioration of their financial condition or prospects, or a reduction in their demand for our products could adversely affect our business, results of operations, financial condition and cash flows.*

Our Company is engaged in the business of export and import trade of agricultural produce and commodities for sale to various merchants and distributors. For FY 2021-22, our revenue from operations from our top ten customers were approximately 72.58%. While we typically have long term relationships with our customers, we have not entered into long terms agreements with our customers and the success of our business is accordingly significantly dependent on us maintaining good relationships with our customers and suppliers. The actual sales by our Company may differ from the estimates of our management due to the absence of long-term agreements. The loss of one or more of these significant customers or a reduction in the amount of business we obtain from them could have an adverse effect on our business, results of operations, financial condition and cash flows. We cannot assure you that we will be able to maintain historic levels of business and/or negotiate and execute long term contracts on terms that are commercially viable with our significant customers or that we will be able to significantly reduce customer concentration in the future.

Further, neither do we have any exclusive agents, dealers, distributors nor have we entered into any agreements with any of the market intermediaries for selling or marketing our products. If there occurs any change in the market conditions, requirements of our customers, or if we fail to identify and understand evolving industry trends, preferences or fail to meet our customers’ demands, it might have a direct impact on our revenue and customer base. The inability to procure new orders on a regular basis or at all may adversely affect our business, revenues, cash flows and operations.

17. *Our inability to collect receivables and default in payment from our customers could result in the reduction of our profits and affect our cash flows.*

Our business operations depend on our ability to successfully obtain payment from our customer(s) for our products sold to them. We typically bill and collect on relatively short cycles and maintain provisions against receivables and unbilled services. Actual losses on client balances could differ from those that we currently anticipate and as a result we might need to adjust our provisions.

Our credit terms vary from the start date of the invoice to approximately 15-30 days for our customers. In spite of our efforts to collect our dues from the respective creditors within the stipulated time, and further providing extended credit periods to collect our dues, we face the risk of non-receipt of our outstanding amounts in a timely manner or at all, particularly in the absence of long-term arrangements with customers. We cannot guarantee that our customers will not default on their payments. Our inability to collect receivables from our customers in a timely manner or at all in future, could adversely affect our working capital cycle and cash flows. In Fiscals 2021 and 2022 and for the nine months period ended December 31, 2022, our trade receivables were Rs. 26,853.60 Lakhs, Rs. 43,417.24 Lakhs and Rs. 40102.73 Lakhs, respectively, which represented 20.14%, 15.18% and 18.46%, respectively, of our total revenue for such periods. If we are unable to collect customer receivables or if the provisions for doubtful receivables are inadequate, it could have a material adverse effect on our business, financial condition and results of operations.

Macroeconomic conditions could also result in financial difficulties, including insolvency or bankruptcy, for our customers, and as a result could cause customers to delay payments to us, request modifications to their payment arrangements, that could increase our receivables or affect our working capital requirements, or default on their payment obligations to us. In particular, farmers may be adversely affected by a number of factors beyond their control, which could affect their financial condition. An increase in bad debts or in defaults by our customer and dealers may compel us to utilize greater amounts of our operating working capital and result in increased interest costs, thereby adversely affecting our results of operations and cash flows.

18. *Orders placed by customers may be delayed, modified, cancelled or not fully paid for by our customers, which may have an adverse effect on our business, financial condition and results of operations.*

We may encounter problems in executing the orders in relation to our imported and exported products, or executing it on a timely basis. Moreover, factors beyond our control or the control of our customers, including delays or failure to obtain necessary permits, authorizations, permissions and other types of difficulties or obstructions, may result in the postponement of the delivery of products or cause its cancellation. Further, even though we execute orders with our customers, the order could be cancelled or there could be changes in scope and / or scheduled delivery of the products. Accordingly, it is difficult to predict with certainty if, when, and to what extent the delivery of the orders placed will be made. Failure to deliver products on time could lead to customers delaying or refusing to pay the amount, in part or full, which may adversely affect our business.

19. *Our insurance coverage may not adequately protect us against certain operating risks and this may have an adverse effect on the results of our business.*

We could face liabilities or otherwise suffer losses should any unforeseen incident such as fire, flood, and accidents affect our factories and distribution centres or in the regions/areas where our stores and distribution centres are located. Although we maintain insurance coverage in relation to fire and other natural and accidental risks at our facilities, money and fidelity insurance and stock insurance, there are possible losses, which we may not have insured against or covered or wherein the insurance cover in relation to the same may not be adequate. Any damage suffered by us in excess of such limited coverage amounts, or in respect of uninsured events, not covered by such insurance policies will have to be borne by us. Further, while there has been no past instance of inadequate insurance coverage for any loss, there can however be no assurance that the terms of our insurance policies will be adequate to cover any damage or loss suffered by us or that such coverage will continue to be available on reasonable terms or will be available in sufficient amounts to cover one or more large claims, or that the insurer will not disclaim coverage as to any future claim. A successful enforcement of one or more claims against us that exceeds our available insurance coverage or changes in our insurance policies, including premium increases or the imposition of a larger deductible or co-insurance requirement, could adversely affect our business, financial condition, cash flows and results of operations.

20. *Our Company operates under several statutory and regulatory permits, licenses and approvals. Our failure to obtain and/or renew any approvals or licenses in future may have an adverse impact on our business operations.*

Our Company requires several statutory and regulatory permits, licenses and approvals to operate the business. Many of these approvals are granted for fixed periods of time and need renewal from time to time. There can be no assurance that the relevant authorities will issue any of such permits or approvals in time or at all. Further, these permits, licenses and approvals are subject to several conditions, and our Company cannot assure that it shall be able to continuously meet such conditions or be able to prove compliance with such conditions to statutory authorities, and this may lead to cancellation, revocation or suspension of relevant permits/ licenses/ approvals. Failure by our Company to renew, maintain or obtain the required permits, licenses or approvals, or cancellation, suspension or revocation of any of the permits, licenses or approvals which may result in the interruption of our Company's operations and may have a material adverse effect on the business.

21. *Our inability to manage our growth effectively or failure to implement our business and growth strategies could adversely affect our business and future financial performance.*

Our revenue has grown by 114.80%, i.e. from Rs. 132840.98 Lakhs in Fiscal 2021 to Rs. 285343.80 Lakhs in Fiscal 2022 and our PAT for the period has grown from Rs. 1103.09 Lakhs in Fiscal 2021 to Rs. 2744.33 Lakhs in Fiscal 2022. However, there can be no assurance that our growth strategy will be successful or that we will be able to continue to expand further, or at the same rate.

The success of our business will depend greatly on our ability to achieve our financial objectives and results of operations will depend on our ability to identify and evaluate suitable markets within India and internationally and thereby accomplishing our business opportunities. To grow our business, we need to evaluate of suitable markets for our products, the willingness to purchase, purchasing power and demand for agro commodities, the ability to tie up with the local distributors, need to hire, train, supervise and manage new employees and to implement systems capable of effectively accommodating our growth, the availability and cost of financing,

government directives on import-export, and the obtaining of permits and approvals for logistic is a must. If we fail to execute any of the above and our order(s) in a timely and effective manner, it may cause us to modify, delay or abandon entire order, which in turn could cause our business to suffer.

Further, our failure to source business opportunities effectively could have a material adverse effect on our business, financial condition and results of operations. It also is possible that the strategies used by us in the future may be different from those presently in use. No assurance can be given that our analyses of market and other data or the strategies we use or plans in future to use will be successful under various market conditions.

22. *If we are unable to raise additional capital for our business, it may delay our Company's growth plan and have a material adverse effect on our business and financial condition.*

We will continue to incur significant expenditure in maintaining and growing our existing business operations. We cannot assure you that we will have sufficient capital resources for our current operations or any future expansion plans that we may have. While we expect our cash on hand and cash flow from operations to be adequate to fund our existing commitments, our ability to incur any future borrowings is dependent upon the success of our operations. Additionally, if we are unable to arrange adequate financing on timely basis, it could adversely affect our ability to complete expansion plans. Our ability to arrange financing and the costs of capital of such financing are dependent on numerous factors, including general economic and capital market conditions, credit availability from banks, investor confidence, the continued success of our operations and regulatory framework that allows us to raise capital. If we decide to meet our capital requirements through debt financing, we may be subject to certain restrictive covenants. If we are unable to raise adequate capital in a timely manner and on acceptable terms, or at all, our business, results of operations, cash flows and financial condition could be adversely affected.

23. *Our funding requirements and deployment of the issue proceeds are based on management estimates and have not been independently appraised by any bank or financial institution.*

Our funding requirements and the deployment of the proceeds of the Issue are based on management estimates and our current business plan. The fund requirements and intended use of proceeds have not been appraised by bank or financial institution and are based on our estimates. In view of the competitive and dynamic nature of our business, we may have to revise our expenditure and fund requirements as a result of variations including in the cost structure, changes in estimates and other external factors, which may not be within the control of our management. This may entail rescheduling, revising or cancelling the planned expenditure and fund requirement and increasing or decreasing the expenditure for a particular purpose from its planned expenditure at the discretion of our Board. In addition, schedule of implementation as described herein are based on management's current expectations and are subject to change due to various factors some of which may not be in our control.

24. *Any variation in the utilization of the Net Proceeds as disclosed in this Draft Letter of Offer shall be subject to certain compliance requirements, including prior Shareholders' approval.*

Our Company intends to deploy and utilize Net Proceeds raised pursuant to the Rights Issue in the manner set out in the section titled "*Objects of the Issue*" on page no. 49 in the Draft Letter of Offer. In accordance with SEBI LODR Regulations and other applicable provisions, we cannot undertake any variation in the utilization of the Net Proceeds as disclosed in this Draft Letter of Offer without obtaining the approval of shareholders of our Company through a special resolution. In the event of any such, we may not be able to obtain the approval of the shareholders of our Company in a timely manner, or at all. Any delay or inability in obtaining such approval of the shareholders of our Company may adversely affect our business or operations and it may also lead to delay in deployment of funds as per the schedule of implementation as disclosed in objects section titled "*Objects of the Issue*" on page no. 49 in the Draft Letter of Offer. In light of these factors, we may not be able to undertake variation of objects of the Offer to use any unutilized proceeds of the Rights Issue, if any, even if such variation is in the interest of our Company. This may restrict our Company's ability to respond to any change in our business or financial condition by redeploying the unutilized portion of Net Proceeds, if any, which may adversely affect our business and results of operations.

25. *We are dependent on our Promoter, Directors our senior management and key personnel of our Company for success whose loss could seriously impair the ability to continue to manage and expand business efficiently.*

Our Promoter, Directors, senior management and key managerial personnel collectively have vast years of experience in the industry and are difficult to replace. They provide expertise which enables us to make well informed decisions in relation to our business and our future prospects. For further details of our Directors and key managerial personnel, please refer to Section “Our Management” on page 81 of this Draft Letter of Offer. Our success largely depends on the continued services and performance of our management and other key personnel. The loss of service of the Promoters, Directors and other senior management could seriously impair the ability to continue to manage and expand the business efficiently.

Further, the loss of any of the senior management or other key personnel may adversely affect the operations, finances and profitability of our Company. Any failure or inability of our Company to efficiently retain and manage its human resources would adversely affect our ability to implement new projects and expand our business.

Further, as on December 31, 2022, our Promoters, along with our Promoter Group members, hold, approximately 61.88 % issue paid up equity capital of our Company and, therefore, will have the ability to significantly influence our corporate decision making process. This will include the ability to appoint Directors on our Board and the right to approve significant actions at Board and at Shareholders’ meetings, including the issue of Equity Shares and dividend payments, business plans, mergers and acquisitions, any consolidation or joint venture arrangements, any amendment to the Memorandum and Articles of Association, and any assignment or transfer of our interest in any of our licenses. We cannot assure you that our Promoters along with Promoter Group members interests in any such scenario will not conflict with the interest of other Shareholders or with the interests of our Company. Any such conflict may adversely affect our ability to execute our business strategy or to operate our business effectively or in the best interests of our other Shareholders. For details on their shareholding pattern of our company and that of the promoter and promoter group, please refer to point 9 on page 46 in the chapter titled “*Capital Structure*” beginning on page no. 45 of the DLOF.

26. *We have not commissioned an industry report for the disclosures made in the chapter titled “Industry Overview” and made disclosures on the basis of the data available on the internet.*

We have not commissioned an industry report, for the disclosures which need to be made in the chapter titled “Industry Overview” of this Draft Letter of Offer. We have made disclosures in the said chapter on the basis of the relevant industry related data available online. We cannot assure you that any assumptions made are correct or will not change and, accordingly, our position in the market may differ from that presented in this Draft Letter of Offer. Further, the industry data mentioned in this Draft Letter of Offer or sources from which the data has been collected are not recommendations to invest in our Company. Accordingly, investors should read the industry related disclosure in this Draft Letter of Offer in this context.

27. *Any downgrade in the rating of the Company’s long-term bank facility will adversely affect the financials and cost of borrowings of the Company.*

ICRA has reaffirmed “[ICRA] BBB (Stable)/ [ICRA]A3+” assigned rating on the long-term bank facilities to our Company. The rating continues to reflect the Company’s established position in the agricultural commodities trading business, comfortable financial risk profile and adequate risk management policies. We cannot assure you that we will be able to maintain this rating in future and any downgrade in the rating of the Company’s long term bank facility will adversely affect the financials and cost of borrowings of the Company thereby impacting the profitability of the Company.

28. *Our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.*

Our Company has paid dividend for FY 2022 and FY 2021 at the rate of 5% each year. However, our ability to pay dividends in the future will depend on number of factors, including our profit after tax for the fiscal year, utilisation of the profit after tax towards reserves, our future expansion plans and capital requirements, our

financial condition, our cash flows and applicable taxes, including dividend distribution tax payable by our Company. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board and subsequent approval of shareholders and will depend on factors that our Board and shareholders deem relevant. We may decide to retain all our earnings to finance the development and expansion of our business and, therefore, may not declare dividends on our Equity Shares. We cannot assure you that we will be able to pay dividends in the future.

29. The recent outbreak of the novel coronavirus could have a significant effect on our results of operations, and could negatively impact our business, revenues, financial condition, and results of operations.

An outbreak of COVID-19 was recognised as a pandemic by the WHO on March 11, 2020. In response to the COVID-19 outbreak, the governments of many countries, including India, have taken preventive or protective actions such as imposing country-wide lockdowns, as well as restrictions on travel and business operations. Since May 2020 many of these measures have been lifted. We proactively engaged with our clients to reassure them and to demonstrate our commitment to restart our operations and to build confidence in the safety protocols deployed at our office. If we do not respond appropriately to the pandemic, or if customers do not perceive our response to be adequate, we could suffer damage to our reputation and our brand, which could adversely affect our business in the future.

Further, the lockdown was again imposed by the government in some parts of India during April 2021, which was partially relaxed in June 2021, during this lockdown although we have continued with our business, the execution of our business operations was delayed by few weeks.

We cannot predict the degree to, or the time period over, which our business will be affected by the COVID-19 outbreak. For example, this pandemic could necessitate further lockdowns, resulting in significant additional effects on our revenue, financial condition and results of operations. There are numerous uncertainties associated with the COVID-19 outbreak, including the number of individuals who will become infected, availability of a vaccine or a cure that mitigates the effect of the virus, the extent of the protective and preventative measures imposed by governments and whether the virus' impact will be seasonal, among others. Consequently, there may be adverse effects of this pandemic on our short-term business operations and our financial results may be impacted.

ISSUE SPECIFIC RISKS

30. Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.

The Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Renounees may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renounees prior to the Issue Closing Date. Further in case the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renounee will not be able to apply in this Issue with respect to such Rights Entitlements.

31. Any future issuance of the Equity Shares, or convertible securities by our Company may dilute your future shareholding and sales of the Equity Shares by our Promoters or other major shareholders of our Company may adversely affect the trading price of the Equity Shares.

Any future issuance of the Equity Shares, or convertible securities by our Company, including through exercise of employee stock options or restricted stock units may lead to dilution of your shareholding in our Company, adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. Further, any future sales of the Equity Shares by the Promoters and members of our Promoter Group, or other major shareholders of our Company may adversely affect the trading price of the Equity Shares.

- 32. *Investors may not receive the Equity Shares that you subscribe in the Issue until fifteen days after the date on which this Issue closes, which will subject you to market risk.***

The Equity Shares that the Investors subscribe in the Issue may not be credited to your demat account with the depository participants until approximately 15 days from the Issue Closing Date. Investors can start trading the Equity Shares allotted to them only after receipt of the listing and trading approval in respect thereof. Since the Equity Shares are currently traded on the Stock Exchange, investors will be subject to market risk from the date they pay for the Issue Shares to the date when trading approval is granted for them. Further, we cannot assure you that the Equity Shares allocated to an Investor will be credited to the Investor's demat account or that trading in the Equity Shares will commence in a timely manner or that trading in the Equity Shares will commence within the specified time period, subjecting you to market risk for such period.

- 33. *Investors will not have the option of getting the Allotment of Rights Equity Shares in physical form and the Rights Entitlement of Eligible Equity Shareholders holding Equity Shares in physical form ("Physical Shareholders") may lapse in case they fail to furnish the details of their demat account to the Registrar.***

In accordance with Regulation 77A of the SEBI ICDR Regulations read with the SEBI Rights Issue Circular, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialised form only. Accordingly, the Rights Entitlements of the Physical Shareholders shall be credited in a suspense escrow demat account opened by our Company during the Issue Period. The Physical Shareholders are requested to furnish the details of their demat account to the Registrar not later than two Working Days prior to the Issue Closing Date to enable the credit of their Rights Entitlements in their demat accounts at least one day before the Issue Closing Date. The Rights Entitlements of the Physical Shareholders who do not furnish the details of their demat account to the Registrar not later than two Working Days prior to the Issue Closing Date, shall lapse. Further, pursuant to a press release dated December 3, 2018 issued by the SEBI, with effect from April 1, 2019, a transfer of listed Equity Shares cannot be processed unless the Equity Shares are held in dematerialized form (except in case of transmission or transposition of the Equity Shares and except the pending transfers). For details, refer chapter titled "*Terms of the Issue – Procedure for Application by Eligible Equity Shareholders holding Equity Shares in physical form*" on page 185 of this Draft of Letter of Offer.

- 34. *Applicants to this Issue are not allowed to withdraw their Applications after the Issue Closing Date.***

In terms of the SEBI ICDR Regulations, the Applicants in this Issue are not allowed to withdraw their Applications after the Issue Closing Date. The Allotment in this Issue and the credit of such Equity Shares to the Applicant's demat account with its depository participant shall be completed within such period as prescribed under the applicable laws. There is no assurance, however, that material adverse changes in the international or national monetary, financial, political or economic conditions or other events in the nature of force majeure, material adverse changes in our business, results of operation or financial condition, or other events affecting the Applicant's decision to invest in the Issue Shares, would not arise between the Issue Closing Date and the date of Allotment in this Issue. Occurrence of any such events after the Issue Closing Date could also impact the market price of our Equity Shares. The Applicants shall not have the right to withdraw their Applications in the event of any such occurrence. We cannot assure you that the market price of the Equity Shares will not decline below the Issue Price. To the extent the market price for the Equity Shares declines below the Issue Price after the Issue Closing Date, the shareholder will be required to purchase Issue Shares at a price that will be higher than the actual market price of the Equity Shares at that time. Should that occur, the shareholder will suffer an immediate unrealized loss as a result. We may complete the Allotment even if such events may limit the Applicants' ability to sell our Equity Shares after this Issue or cause the trading price of our Equity Shares to decline.

- 35. *Your ability to acquire and sell the Issue Shares offered in the Issue is restricted by the distribution, solicitation and transfer restrictions set forth in this Draft Letter of Offer.***

No actions have been taken to permit an offering of the Issue Shares in the Issue in any jurisdiction except India. As such, our Issue Shares have not and will not be registered under the U.S. Securities Act, any state securities laws or the law of any jurisdiction other than India. Further, your ability to acquire Issue Shares is restricted by the distribution and solicitation restrictions set forth in this Draft Letter of Offer. For further information, please refer to the chapters entitled '*Notice to Investors*', '*Other Regulatory and Statutory*

Disclosures' and *'Restrictions on Foreign Ownership of Indian Securities'* on pages 10, 170 and 207, respectively. You are required to inform yourself about and observe these restrictions. Our representatives, our agents and us will not be obligated to recognize any acquisition, transfer or resale of the Issue Shares made other than in compliance with applicable law.

36. *Holders of Equity Shares could be restricted in their ability to exercise pre-emptive rights under Indian law and could thereby suffer future dilution of their ownership position.*

Under the Companies Act, any company incorporated in India must offer its holders of equity shares preemptive rights to subscribe and pay for a proportionate number of shares to maintain their existing ownership percentages prior to the issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the shares voted on such resolution, unless our Company has obtained Government approval to issue without such rights. However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without us filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights unless we make such a filing. We may elect not to file a registration statement in relation to pre-emptive rights otherwise available by Indian law to you. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, your proportional interests in us would be reduced.

37. *You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares of an Indian company are generally taxable in India. Any gain realized on the sale of listed equity shares on a stock exchange held for more than 12 months will not be subject to long-term capital gains tax in India if Securities Transaction Tax (STT) is paid on the sale transaction and additionally, as stipulated by the Finance Act, 2017, STT had been paid at the time of acquisition of such equity shares, except in the case of such acquisitions where STT could not have been paid, as notified by the GoI under notification no. 43/2017/F. No. 370142/09/2017-TPL on June 5, 2017. However, Finance Act, 2018, taxes such long term capital gains exceeding ₹1 lakh arising from sale of equity shares on or after April 1, 2018. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short-term capital gains tax in India. Capital gains arising from the sale of the Equity Shares may be partially or completely exempt from taxation in India in cases where such exemption is provided under a treaty between India and the country of which the seller is a resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on gains made upon the sale of the Equity Shares.

38. *Conditions in the Indian securities market may affect the price or liquidity of our Equity Shares.*

The Indian securities markets are smaller and more volatile than securities markets in more developed economies. The Indian stock exchanges have, in the past, experienced substantial fluctuations in the prices of listed securities. Prices of listed securities are subject to of volatility linked among other factors to the uncertainty in the global markets and the rising inflationary and interest rate pressures domestically. The governing bodies of the Indian stock exchanges have, from time to time, imposed restrictions on trading in certain securities, limitations on price movements and margin requirements. Future fluctuations or trading restrictions could have a material adverse effect on the price of our Equity Shares.

39. *The Issue Price of our Rights Equity Shares may not be indicative of the market price of our Equity Shares after the Issue.*

The Issue Price of Rights Equity Share may not be indicative of the market price for our Equity Shares after the Issue. The market price of the Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. There can be no assurance that the Investors will be able to sell their Equity Shares at or above the Issue Price. The factors that could affect our share price are:

- (a) quarterly variations in the rate of growth of our financial indicators such as earnings per share;

- (b) changes in revenue or earnings estimates or publication of research reports by analysts;
- (c) speculation in the press or investment community;
- (d) general market conditions; and,
- (e) domestic and international economic, legal and regulatory factors unrelated to our performance.

40. *There is no guarantee that the Rights Equity Shares issued pursuant to the Issue will be listed on the Stock Exchanges in a timely manner or at all and any trading closures at the Stock Exchanges may adversely affect the trading price of our Equity Shares.*

In accordance with Indian law and practice, permission for listing of the Rights Equity Shares will not be granted until after those Rights Equity Shares have been issued and allotted. In addition, we are required to deliver the Draft Letter of Offer to SEBI and the Stock Exchanges under the applicable provisions of the Companies Act and the SEBI ICDR Regulations. The trading approvals shall be granted subject to the submission of all other relevant documents authorizing the issuing of Rights Equity Shares. There could be a failure or delay in listing the Rights Equity Shares on the Stock Exchanges. Any failure or delay in obtaining the approval would restrict investors' ability to dispose of their Equity Shares. Further, a closure of, or trading stoppage on the Stock Exchanges could adversely affect the trading price of the Equity Shares.

EXTERNAL RISK FACTORS

41. *Political instability or changes in the government or government policies could impact the liberalization of the Indian economy.*

The performance and growth of our Company is dependent on the health of the Indian economy and more generally the global economy. The economy could be adversely affected by various factors such as political or regulatory action, including adverse changes in liberalization policies, social disturbances, terrorist attacks and other acts of violence or war, natural calamities, interest rates, commodity and energy prices and various other factors. The rate of economic liberalization could change, and specific laws and policies affecting foreign investment, currency exchange rates and other matters affecting investment in India could change as well. As a result, our business and the market price and liquidity of the Equity Shares may be affected by such economic and / or political changes. While the current government is expected to continue the liberalization of India's economic and financial sectors and deregulation policies, there can be no absolute assurance that such policies will be continued. A significant change in India's economic liberalization and deregulation policies could disrupt business and economic conditions in India generally and specifically have an adverse effect on the operations of our Company.

42. *The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.*

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. Terrorist attacks and other acts of violence or war may adversely affect the Indian securities markets. In addition, any deterioration in international relations, especially between India and its neighbouring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years, and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

43. *Financial instability, economic developments and volatility in securities markets in other countries may also cause the price of the Equity Shares to decline.*

The Indian economy and its securities markets are influenced by economic developments and volatility in securities markets in other countries. Investors' reactions to developments in one country may have adverse effects on the market price of securities of companies located in other countries, including India. Negative economic developments, such as rising fiscal or trade deficits, or a default on national debt, in other emerging

market countries may also affect investor confidence and cause increased volatility in Indian securities markets and indirectly affect the Indian economy in general. Currently, the Russia- Ukraine conflict has resulted in significant increase in a global oil prices which could have a significant impact on inflation and cost of production. Additionally, essential raw materials for the manufacture of various products could be affected globally due to the aforementioned European crisis which could have cascading effect on the Indian economy and the trading price of our Equity Shares.

A loss of investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy, including the movement of exchange rates and interest rates in India. Any financial disruption could have an adverse effect on our business, future financial performance, shareholders' equity and the price of the Equity Shares.

44. Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws and regulations, may adversely affect our business and financial condition.

Our business and financial performance could be adversely affected by unfavorable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations applicable to us and our business. There can be no assurance that the Government of India may not implement new regulations and policies which will require us to obtain approvals and licenses from the Government of India and other regulatory bodies or impose onerous requirements and conditions on our operations. Any such changes and the related uncertainties with respect to the applicability, interpretation and implementation of any amendment to, or change to governing laws, regulation or policy in the jurisdictions in which we operate may have a material adverse effect on our business, financial condition and results of operations. In addition, we may have to incur expenditures to comply with the requirements of any new regulations, which may also materially harm our results of operations. Any unfavorable changes to the laws and regulations applicable to us could also subject us to additional liabilities.

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy.

The application of various Indian tax laws, rules and regulations to our business, currently or in the future, is subject to interpretation by the applicable taxation authorities. If such tax laws, rules and regulations are amended, new adverse laws, rules or regulations are adopted or current laws are interpreted adversely to our interests, the results could increase our tax payments (prospectively or retrospectively) and / or subject us to penalties. Further, changes in capital gains tax or tax on capital market transactions or sale of shares could affect investor returns. As a result, any such changes or interpretations could have an adverse effect on our business and financial condition.

45. General economic conditions in India and globally could adversely affect our business, results of operations and financial condition.

Our business, prospects, results of operations and financial condition depend significantly on worldwide economic conditions and the health of the Indian economy. Various factors may lead to a slowdown in the Indian or world economy which in turn may adversely impact our business, prospects, results of operations and financial condition. Our Company mainly derives revenue from operations in India and the performance and growth of our business is significantly dependent on the performance of the Indian economy. In the past, the Indian economy has been affected by global economic uncertainties, liquidity crisis, domestic policies, global political environment, volatility in interest rates, volatility in currency exchange rates, volatility in commodity and electricity prices, volatility in inflation rates and various other factors. Accordingly, high rates of inflation in India could increase our Company's employee costs and decrease our operating margins, which could have an adverse effect on our business, prospects, results of operations and financial condition.

Further the Indian economy is undergoing many changes and it is difficult to predict the impact of certain fundamental economic changes on our business. Conditions outside India, such as a slowdown or recession in the economic growth of other major countries, especially the United States, also have an impact on the growth of the Indian economy. Additionally, an increase in trade deficit, a downgrading in India's sovereign debt rating

or a decline in India's foreign exchange reserves could negatively affect interest rates and liquidity, which could adversely affect the Indian economy and our Company's business. A slowdown in the Indian economy could adversely affect the policy of the Government of India towards the industry in which our Company operates, which may in turn, adversely affect our financial condition. A loss of investor confidence in other emerging market economies or any worldwide financial instability may adversely affect the Indian economy, which could materially and adversely affect our business, results of operations and financial condition as well as the market price of the Equity Shares.

46. The extent and reliability of Indian infrastructure could adversely affect our Company's results of operations and financial condition. India's physical infrastructure is in a developing phase, as compared to that of many developed nations.

Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could have an adverse effect on our results of operations and financial condition.

47. A downgrade in ratings of India, may affect the trading price of the Equity Shares.

Our borrowing costs and our access to the debt capital markets depend significantly on the credit ratings of India. India's sovereign rating is Baa3 with a "stable" outlook (Moody's), BBB- with a "stable" outlook (S&P) and BBB- with a "negative" outlook (Fitch). Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing and the interest rates and other commercial terms at which such financing is available, including raising any overseas additional financing. A downgrading of India's credit ratings may occur, for example, upon a change of government tax or fiscal policy, which are outside our control. This could have an adverse effect on our ability to fund our growth on favourable terms or at all, and consequently adversely affect our business and financial performance and the price of our Equity Shares.

48. Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

The working capital projections made by the Company are based on certain key assumptions, as set out below:

Sr. No.	Particulars	Assumptions
Current Assets		
1	<i>Revenues:</i>	The revenues from FY 2020-21 to FY 2021-22 have increased by 114.80% this increase was mainly a) due to positive Impact of covid 19 on our business and b) The Company increase in turnover because of bulk vessel transactions. In the FY 20-21, our company doing business based on container basis i.e. dispatching goods through container in small quantities whereas in FY 2021-22, our company started business on bulk vessel transactions Bulk vessel transactions means entire vessel of around 45,000 Mts to 60,000 Mts is booked in the name of our company and our company is able to dispatch goods on huge quantity to overseas buyers resulting increase in revenue.
2	<i>Inventories:</i>	There is increase in inventory in FY 2021-22 as compared FY 2020-21 due to the reason that company’s turnover has been increased to double fold. We have estimated [●] days of finished inventory for the fiscal year ended March 31, 2024 to adequate availability of products at a more competitive price. There is decrease in holding period of debtors as compared to March 2021 from 163 days to 45 days in March 2022. The reason is realization of debtors proportionately reduced in March 2022 as compared to March 2021. There is no recovery in trade receivables in March 2021 due to covid pandemic globally effecting business widely which results decrease in period of holding in March 2022 as compare to March 2021 Our general business credit cycle is 45 days for customer. The reason for huge period of holding in March 2021 is covid pandemic effecting globally to business units to do normal business transactions. Due to the business growth and need for increasing the sales volume we estimate the receivable at levels to [●] days for fiscal year ended March 31, 2024 respectively.
Current Liabilities		
4	Trade payables	Our trade payables have been 104 days and 7 days for fiscal 2021 and 2022 respectively. However, going forward we estimate to maintain payables at [●] days for fiscal year ended March 31, 2024 respectively to avail best pricing and also buy from large suppliers.

SECTION IV: ABOUT OUR COMPANY

INDUSTRY OVERVIEW

Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured and accordingly, investment decisions should not be based on such information.

Introduction

India is one of the top producers of a large numbers of commodities, and also has a long history of trading in commodities and related derivatives. The commodities derivatives market has seen ups and downs, but seems to have finally arrived now. The market has made growth enormous in terms of technology, transparency and the trading activity. Interestingly, this has happened only after the government protection was removed from a number of the commodities, and the market forces were allowed to play their role. This should act as a major lesson for the policy makers in developing countries, that pricing and price risk management should be left to market forces rather.

Economic outlook

Global Economy

Global growth is expected to moderate from 5.9 in 2021 to 4.4 percent in 2022—half a percentage point lower for 2022 than in the October World Economic Outlook (WEO), largely reflecting forecast markdowns in the two largest economies. A revised assumption removing the Build Back Better fiscal policy package from the baseline, earlier withdrawal of monetary accommodation, and continued supply shortages produced a downward 1.2 percentage-points revision for the United States. In China, pandemic-induced disruptions related to the zero-tolerance COVID-19 policy and protracted financial stress among property developers have induced a 0.8 percentage-point downgrade. Global growth is expected to slow to 3.8 percent in 2023. Although this is 0.2 percentage point higher than in the previous forecast, the upgrade largely reflects a mechanical pickup after current drags on growth dissipate in the second half of 2022. The forecast is conditional on adverse health outcomes declining to low levels in most countries by end-2022, assuming vaccination rates improve worldwide and therapies become more effective.

Indian Economy

Right when the global economy seemed to be at the cusp of witnessing green shoots of recovery after leaving the worst of the COVID-19 pandemic behind the Russia-Ukraine crisis escalated. Consequently, prices of crude oil and gas, food grains such as wheat and corn, and several other commodities have shot up. It is, therefore, no surprise that the war in Ukraine and its potential economic impact have forced several economic forecasters to go back to their drawing boards and revise their growth projections for this year—most now point to less-than-expected growth in 2022. Understandably, the crisis has clouded India's growth outlook as well. Crude oil prices are lingering above US\$100 per barrel, wheat has gone up by 50% in the last two weeks, and edible oil prices are up 20%—all of which are critical imports from the two warring nations. which has been battling inflation for a while now, this situation is making matters worse. Higher fuel and fertilizer prices will reduce government revenues and increase subsidy costs. Furthermore, capital outflows and rising import bills will weigh on the current account balance and currency valuation. We, however, believe that India's underlying economic fundamentals are strong and despite the short-term turbulence, the impact on the long-term outlook will be marginal. The results of growth-enhancing policies and schemes (such as production-linked incentives and government's push toward self-reliance) and increased infrastructure spending will start kicking in from 2023, leading to a stronger multiplier effect on jobs and income, higher productivity, and more efficiency—all leading to accelerated economic growth. various government incentives such as lower taxes, and rising services exports on the back of stronger digitization and technology transformation drive across the world will aid in growth. On the health front, a large, vaccinated population will likely help contain the impact of subsequent infections waves, if any. On the back of these factors, we expect India

to grow at 8.3–8.8% during FY2021–22, followed by equally strong growth of more than 7.5% and 6.5% in the next two fiscal years, respectively

The Impact of the War in Ukraine on Commodity Markets

The Russian invasion of Ukraine has been a major shock to commodity markets. The war has led to significant disruptions to the production and trade of commodities for which Russia and Ukraine are key exporters. Prices have risen sharply for all energy commodities and some food commodities, including wheat and oilseeds. This, in turn, has raised energy and food security concerns, especially for the poorest households. In response to price hikes, policymakers have often sought to provide relief to consumers via subsidies or lower taxes; however, these are generally ineffective remedies and may exacerbate supply shortages. Policymakers can better mitigate the impact of higher prices on low-income households through targeted measures, including cash transfers. Past commodity price shocks induced policy and market responses that led to increased sources of supply and, for oil price shocks, greater consumption efficiency and substitution away from oil. Over time, the recent spike in prices will likely once again spur more efficient energy consumption and a faster transition away from fossil fuels, particularly if supported by appropriate policy responses. Food production, at the global level, will also respond to changes in relative prices. However, the uncertainties for food supply availability stemming from the war are high, and low-income countries may have urgent needs for international assistance for a prolonged period.

ADVANTAGE INDIA

- **Robust demand:** A large population and rising urban and rural income is driving the demand. External demand is driving export from agriculture sector.
- **Competitive advantage:** High proportion of agricultural land, diverse agro-climatic conditions encourage cultivation of different crops.
- **Policy support:** In April 2021, the Government of India approval a PLI scheme for the food processing sector with an incentive outlay of Rs 10,900 crore (US\$ 1,484 million) over a period of six years starting from FY22. The Krishi UDAN 2.0 scheme proposes assistance and incentive for movement of agri-produce by air transport.
- **Attractive opportunities:** Demand for agricultural inputs and allied services like warehousing and cold storages is increasing in India at a fast pace.

India has the second-largest arable land resources in the world. With 20 Agri-climatic regions, all the 15 major climates in the world exist in India. The country also has 46 of the 60 soil types in the world. India is the largest producer of spices, pulses, milk, tea, cashew, and jute, and the second largest producer of wheat, rice, fruits and vegetables, sugarcane, cotton, and oilseeds. During 2019-20 crop year, food grain production reached a record of 296.65 million tonnes. For FY 2021-22, the government has set a target to increase production by 3.9%. Consumer spending in India will return to growth in 2022 post the pandemic-led contraction, expanding by as much as 7%. Private consumption expenditure (at constant prices) was estimated at Rs. 80.8 trillion (US\$ 1.08 trillion) in FY22 against Rs. 75.6 trillion (US\$ 1.01 trillion) in FY20.

India can be among the top five exporters of Agro-commodities by shifting its focus on cultivation and effectively handholding farmers, according to the World Trade Centre. The total agricultural and allied products exports stood at US\$ 41.25 billion in FY21. The principal commodities that posted significant positive growth in exports between FY20 and FY21 were the following:

- Wheat and Other Cereals: 727% from Rs. 3,708 crore (US\$ 505 million) to Rs. 5,860 crore (US\$ 799 million)
- Non-Basmati Rice: 132% from Rs. 13,130 crore (US\$ 1,789) to Rs. 30,277 crore (US\$ 4,126 million)
- Soya Meal: 132% from Rs. 3,087 crore (US\$ 421 million) to Rs. 7,224 crore (US\$ 984 million)
- Raw Cotton: 68% from Rs. 6,771 crore (US\$ 923 million) to Rs. 11,373 crore (US\$ 1,550 million)
- Sugar: 39.6% from Rs. 12,226 crore (US\$ 1,666 million) to Rs. 17,072 crore (US\$ 2,327 million)
- Spices: 11.5% from Rs. 23,562 crore (US\$ 3,211 million) to Rs. 26,257 crore (US\$ 3,578 million)
- The Agriculture Export Policy, 2018 aimed to increase India's agricultural export to Rs. 4,19,340 crore (US\$ 60 billion) by 2022. Government aims to raise fishery export from India to Rs. 1 lakh crore (US\$ 14.31 billion) by 2024-25.

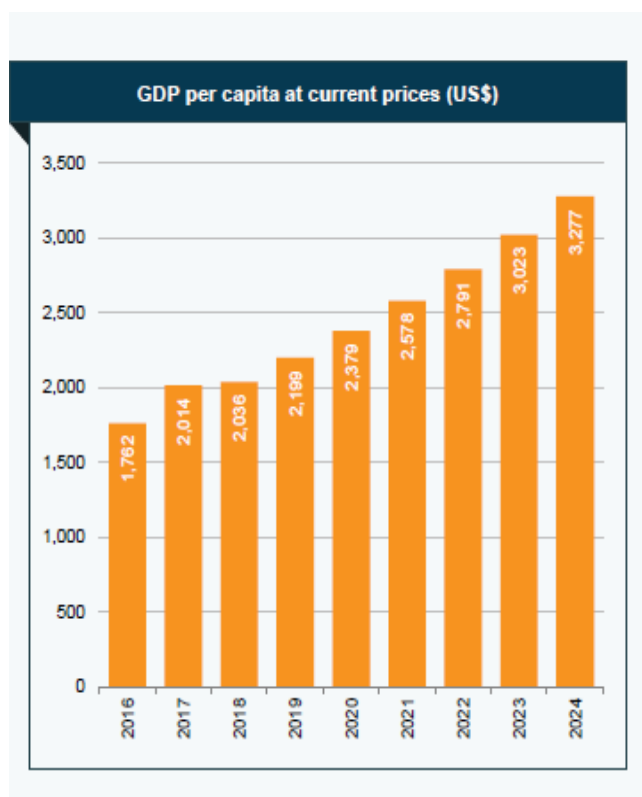

In 2021, India witnessed growth in agriculture product exports:

- In June 2021, India exported 24 metric tonnes of groundnuts to Nepal from West Bengal, boosting groundnut exports from Eastern India.
- In FY21, India exported 1.91 lakh tonnes of banana worth Rs. 619 crore (US\$ 82.90 million).

Growth Drivers of Indian Agricultural

1. Rising income and growing middle class to drive demand for processed food

- Strong growth in per capita income has resulted in greater demand for food items.
- Per capita GDP of India is expected to reach US \$ 3,277 in 2024 from US\$ 2,036 in 2018.
- Packaged food industry in India is expected to cross US\$ 65 billion by 2020 and become the third-largest market for packaged foods globally.
- The Ministry of Food Processing has been allocated Rs. 1,308 .66 crore (US\$ 180 .26 million) in the Union Budget 2021 -22.
- There has also been a shift in demand:
 - from carbohydrates to meat products (in line with the various phases of economic growth)
 - and to convenience foods, and organic and diet foods

2. Supply side drivers

There has been a strong growth in the use of hybrid seeds due to their high yield and resistance to biotic and abiotic stress. Farm mechanization helps in raising farm income by increasing productivity and limiting post-harvest losses. There has been consistent support from the government to push Kisan Credit Cards, and agriculture loans are kept under the category of priority sector lending. Concerted efforts have been made to insulate these rain-fed areas from the vagaries of rainfall through creation of irrigation infrastructure such as canals, minor irrigation support as well as micro irrigation implements.

3. Policy Supports

The Government of India has introduced several projects to assist the agriculture sector which are follows

❖ **Pradhan Mantri Kisan Samman Nidhi Yojana (PM-Kisan)**

Prime Minister of India launched the Pradhan Mantri Kisan Samman Nidhi Yojana (PM PM-Kisan) Benefits under the PM Kisan plan have been delivered to about 11.78 crore farmers as of February 22, 2022, and Rs. 1.82 lakh crore (US\$ 23.97 billion) have been released to qualified recipients across India in various payments.

❖ **Pradhan Mantri Krishi Sinchai Yojana (PMKSY)**

As per the Union Budget 2021-22, Rs. 11,588 crore (US\$ 1.5 billion) was allocated to Pradhan Mantri Krishi Sinchai Yojana (PMKSY).

❖ **Pradhan Mantri Kisan Samman Nidhi Yojana (PM-Kisan)**

Prime Minister of India launched the Pradhan Mantri Kisan Samman Nidhi Yojana (PM PM-Kisan) Benefits under the PM Kisan plan have been delivered to about 11.78 crore farmers as of February 22, 2022, and Rs. 1.82 lakh crore (US\$ 23.97 billion) have been released to qualified recipients across India in various payments.

❖ **Pradhan Mantri Kisan Maan-Dhan Yojana (PM-KMY)**

A minimum fixed pension of Rs. 3,000 (US\$ 42.92) will be provided to eligible small and marginal farmers on attaining the age of 60 years, subject to certain exclusion clauses. The beneficiary is required to make a monthly contribution between Rs. 55 to Rs. 200 (US\$ 0.78 to 2.86) to the Pension Fund depending on the age of entry into the scheme and a provision of equal contribution by the Central Government.

❖ **Pradhan Mantri Fasal Bima Yojana (PMFBY)**

Aims to support sustainable production in agriculture by providing financial support to farmers who have incurred crop losses/damages due to unforeseen events. This will help stabilise the income of farmers, ensure continuance in farming, encourage them to adopt innovative and modern agricultural practices and ensure flow of credit to the agriculture sector.

❖ **Agricultural Pump Power Policy**

Announced in December 2020., As of March 2021, a total of 582,114 farmers in Maharashtra have paid the arrears of agricultural pump electricity bills amounting to Rs. 511.26 crore (US\$ 63.37 million).

❖ **Krishi UDAN 2.0**

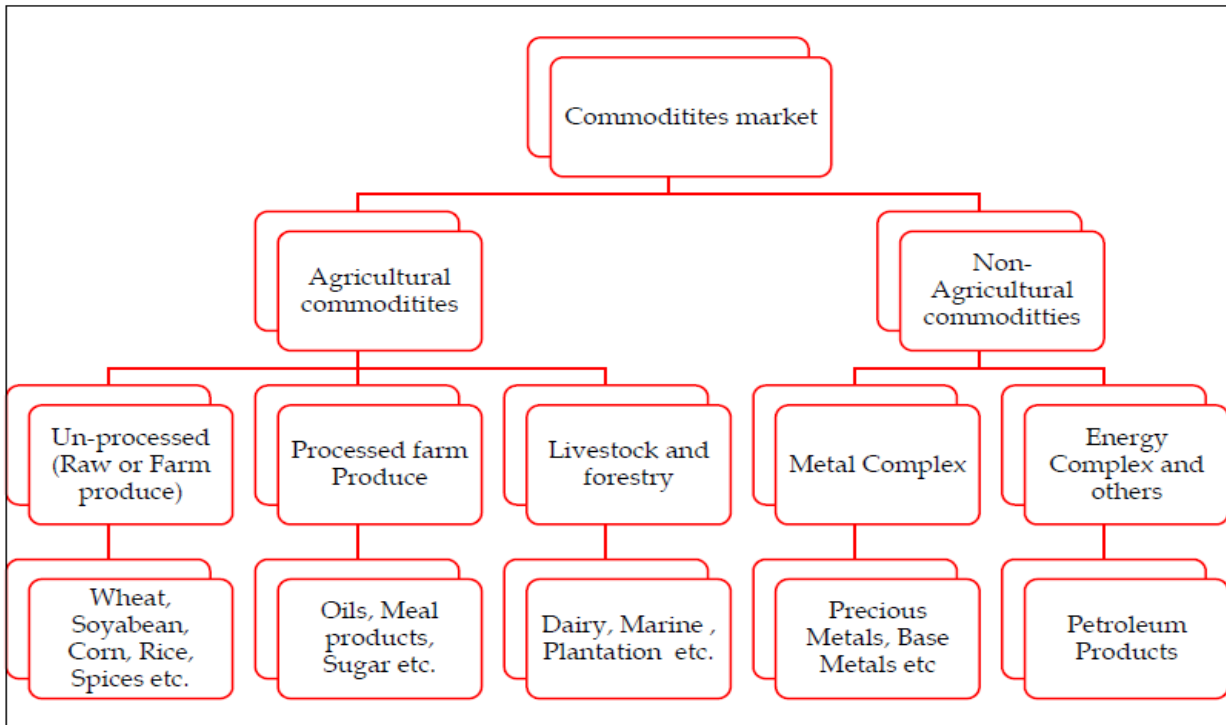

Ministry of Civil Aviation launched the Krishi UDAN 2.0 scheme in October 2021. The scheme proposes assistance and incentive for movement of Agri-produce by air transportation. The Krishi UDAN 2.0 will be implemented at 53 airports across the country largely focusing on Northeast and tribal regions and is expected to benefit farmers, freight forwarders and airlines.

Commodity market

In general, a commodity may be defined as a product or material that it bought and sold. It can be classified as every kind of movable property, except actionable claims, money and Securities. Commodities are split into two types: hard and soft commodities. Hard Commodities are typically Natural resources that must be mined and extracted (Gold, Oil, Petrol, Rubber etc) whereas soft commodities are agricultural products and livestock (Wheat, Sugar, Cotton, Corn, Pork, etc)

History of commodity Market

India has a long-standing, enriching history in commodity markets. However, years of foreign rule, droughts, famines, and poor government policies reduced the importance and popularity of commodity markets in India. But with India becoming stronger in the global economy, the Indian commodity markets have witnessed substantial growth. Commodity derivatives trading began in India way before financial derivatives trading. Commodity derivatives trading began around the same time as that of the U.K and U.S.A.

In India, commodity trading began with the set-up of the first organised commodity trading centre, i.e the Bombay Cotton Trade Association in 1875 which laid the foundation of futures trading in India. Gradually, derivatives were developed for a broad basket of commodities. After the establishment of the Bombay Cotton trade association, many cotton merchants and mill owners were not happy with the functioning of the association. This led to the establishment of the Bombay Cotton Exchange ltd in 1893 by a group of unsatisfied cotton merchants and mill owners. This was later followed by the establishment of futures markets in edible oilseeds complex, raw jute and jute products and bullion.

The Gujarati Vyapari Mandli was created in 1900 to conduct futures trading in groundnut, castor seed and cotton.

Calcutta Hessian Exchange was created in 1919 for futures trading in raw jute and jute products. However, organised trading in jute started only with the set-up of East India Jute Association Ltd in 1927. These two associations merged to establish East Indian Jute and Hessian Ltd in 1945.

However, futures trading in Raw Jute was suspended in 1964 by the insistence of the West Bengal government.

In 1920, futures trading began in gold and silver in Bombay, and later it spread to Kanpur, Jaipur, etc. The Bombay commodity exchange was established and registered on October 12, 1938 for trading in oil seed complex. Before the second world war broke in 1939, there were several future markets trading oil seeds in Gujarat and Punjab. The most exemplary of them was the Chamber of Commerce at Hapur, established in 1913.

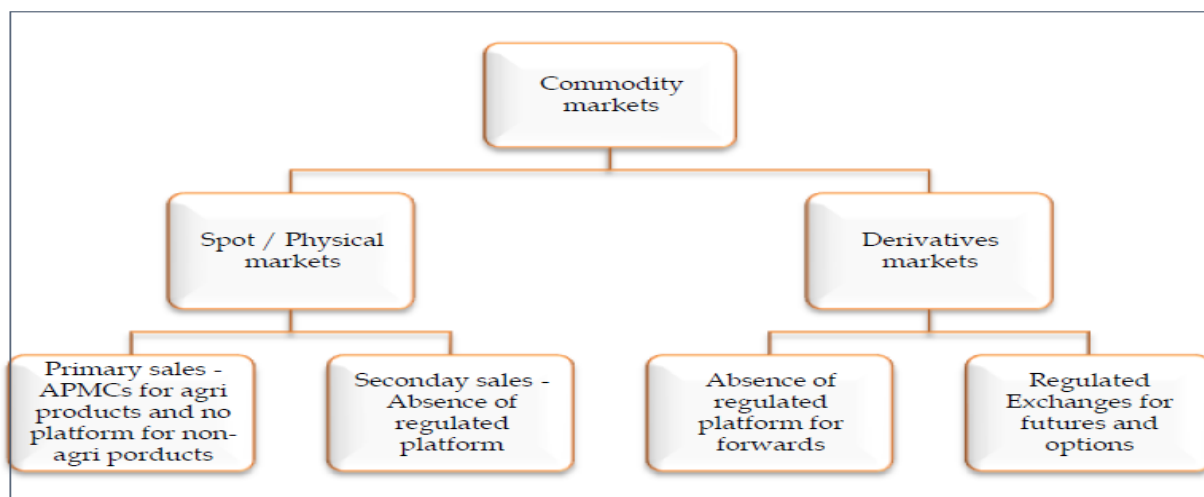

In 1939, the government banned the trading of cotton derivatives. Further, Forward trading was disallowed or prohibited in oilseed, and many other commodities including food grains, spices, vegetable oils, sugar and cloth in 1943.

However, commodities trading again picked up steam, after India's independence in the early 1960s. But future trading was limited only to minor commodities such as pepper and turmeric.

The commodity future market remained dismantled, and dormant for almost four decades. With the turn of the new millennium, the Government started actively encouraging commodities markets in India. In 1992, futures trading in hessian was allowed. In April 1999, future trading in various edible oilseed complexes was permitted. In May 2001, futures trading in sugar was allowed. Since April 2003, future trading has been allowed in all commodities by the Government of India.

Structure of Commodity Market in India

Commodity market is a place where trading in commodities takes place. These are the markets where raw and primary products are exchanged. These raw commodities are traded on regulated commodity exchanges, in which they are bought and sold in standardized contracts. It is similar to an equity market, but instead of buying or selling shares one buys or sells commodities.

a) **Spot market:** The regulation of spot markets for agricultural commodities is decentralized, with state governments independently regulating these markets through Agricultural Produce Market Committee (APMCs) (which are mostly physical yards) for primary sale by farmers while the secondary sales between parties other than farmers operate in unregulated domain. Central Government and some state governments have initiated steps for developing electronic recording systems at APMCs.

Unlike APMCs for the agricultural markets, there is no organized physical market for non-agricultural commodities. There are also no specific laws with respect to the trading of the non-agricultural commodities. There are numerous laws governing various activities involved in the primary production of the non-agricultural commodities. The secondary market, which represents mostly the recycled or scrap market, is highly unorganized and is dispersed amongst large number of tiny units spread across the country which are generally not amenable to enforcement of any laws/regulations applicable to such commodities.

b) **Derivatives Market:** The derivatives market is governed by a central legislation, viz., Securities Contracts Regulation Act, 1956 (SCRA), which provides for the legal framework for organized derivatives trading. The derivatives market for the commodities is regulated by SEBI. The pricing of the derivatives contracts of agricultural commodities is anchored on domestic spot prices while the pricing of non-agricultural commodities, except for gold and silver derivatives, are mostly aligned with the global pricing of such contracts.

There are two kinds of participation in Derivatives market. Hedgers and Speculators. Hedgers do not usually seek a profit by trading commodities future but rather to seek to stabilize revenues or cost of their business operations. Speculators are usually not interested in taking possession of the underlying assets. They essentially place bets on the future price of certain commodities. Speculators are often blamed for big price swing in Derivatives Markets, but they also provide lot of liquidity to the Derivatives Market.

Commodity Exchange

The development of the commodity derivatives market is one of the SEBI's main agendas. In Fiscal 2019 as well, SEBI took various measures for integration and harmonious development of this segment with an aim to build a regulatory ecosystem as advanced as the securities market. Additionally, during Fiscal 2019, the Government of India raised the Minimum Support Price ("MSP") to provide 50% return over the cost of production. To support the agricultural sector, the Government also launched PM-KISAN scheme during the year, which aims to provide direct monetary support to farmers.

At the regulatory front, SEBI permitted eligible foreign entities having actual exposure to Indian commodity markets to hedge their price risk by participating in commodity derivatives trading. The market was further broadened by permitting mutual funds to participate in commodity derivatives market. During the year, the universal exchange principle was operationalized when BSE and NSE commenced their commodity derivatives trading platform. On the other hand, NMCE which had presence in agricultural space was merged with ICEX on September 24, 2018. Another notable development was introduction of new products, such as, steel long (ICEX) and Oman Crude Oil (BSE).

MCX Comdex and the Exchange Nkrishi, are the two benchmark indices in Indian commodities derivatives market, which reflect the broad movement in the commodity prices, recorded an uptrend in Fiscal 2019. While MCX Comdex is a composite index of three sub- indices such as MCX Metal (6 commodities), MCX Energy (2 commodities), and MCX Agriculture (4 commodities), the Exchange Nkrishi is represented by 10 agricultural commodities. During Fiscal 2019, MCX COMDEX increased by 2.1%, while, NKrishi - the agricultural commodity index, moved up by 12.4%. During Fiscal 2019, NKrishi Index increased as seven out of 10 constituent commodities, being, Chana, Guar Seed, Castor Seed, Cotton Seed Oilcake Coriander and Barley, recorded rise in futures prices.

Apart from numerous regional exchanges, India had Six national commodity exchanges namely, Multi Commodity Exchange (MCX), National Commodity and Derivatives Exchange (NCDEX), Indian Commodity Exchange (ICEX), National Multi Commodity Exchange (NMCE), ACE Derivatives Exchange (ACE) and Universal Commodity.

The following is a list of some of the most traded commodities in the world

Crude Oil: One of the most important commodities in the world, crude oil is an unrefined petroleum product that occurs naturally. It is used to produce different products including gasoline and petrochemicals. The price for crude oil generally reported in the U.S. is based on the NYMEX futures price. Contracts are based on 1,000 barrels and trade in U.S. dollars per barrel. The third business day before the 25th calendar day of the month preceding the delivery month is the last trading day for crude oil.

Gold: This is one of the world's most widely-traded precious metals. While investors can buy and sell the physical commodities, traders typically trade gold futures contracts on commodities exchanges. Contracts are generally sized at 100 troy ounces, and are priced in U.S. dollars per troy ounce. The last trading day for gold is the third last business day of the delivery month.

Lumber: This industry has two main products for the end user—softwood and hardwood. Softwood is used primarily in construction, while hardwood is used in flooring and furniture construction, and to make panels and cabinets. Contract sizes for lumber are generally 110,000 nominal board feet and are traded in U.S. dollars per pound. The business day immediately preceding the 16th calendar day of the contract month is the last trading day for lumber.

Natural Gas: This commodity is used to heat homes, help generate electricity, and also has other uses in the commercial and industrial industries. Natural gas contracts are sold by 10,000 million British thermal units (mmBtu). All contracts are traded in U.S. dollars per mmBtu. The final trading day of the month for natural gas is three business days prior to the first day of the delivery month.

Cotton: Cotton is the most widely-used fiber in the world. Cotton fibers are collected and made into yarn and other textiles for clothing and other household goods. Cotton contracts are sized at 50,000 pounds, and trade in U.S. dollars per pound. The very last day of trading for cotton is 17 business days from end of spot month. Other commodities that trade on commodities exchanges include silver, platinum, rice, sugar, orange juice, oats, cattle, corn, copper, cocoa, soybeans, and coffee.

Objectives of Commodity Market

- ❖ Hedging with the objective of transferring risk related to the possession of physical assets through any adverse moments in price. Liquidity and Price discovery to ensure base minimum volume in trading of a commodity

through market information and demand supply factors that facilitates a regular and authentic price discovery mechanism.

- ❖ Maintaining buffer stock and better allocation of resources as it augments reduction in inventory requirement and thus the exposure to risks related with price fluctuation declines. Resources can thus be diversified for investments.
- ❖ Price stabilization along with balancing demand and supply position. Futures trading leads to predictability in assessing the domestic prices, which maintains stability, thus safeguarding against any short-term adverse price movements. Liquidity in Contracts of the commodities traded also ensures in maintaining the equilibrium between demand and supply.
- ❖ Flexibility, certainty and transparency in purchasing commodities facilitate bank financing. Predictability in prices of commodity would lead to stability, which in turn would eliminate the risks associated with running the business of trading commodities. This would make funding easier and less stringent for banks to commodity market players.

Benefits of Commodity Futures Markets

The primary objectives of any futures exchange are authentic price discovery and an efficient price risk management. The beneficiaries include those who trade in the commodities being offered in the exchange as well as those who have nothing to do with futures trading. It is because of price discovery and risk management through the existence of futures exchanges that a lot of businesses and services are able to function smoothly.

Price Discovery: Based on inputs regarding specific market information, the demand and supply equilibrium, weather forecasts, expert views and comments, inflation rates, Government policies, market dynamics, hopes and fears, buyers and sellers conduct trading at futures exchanges. This transforms in to continuous price discovery mechanism. The execution of trade between buyers and sellers leads to assessment of fair value of a particular commodity that is immediately disseminated on the trading terminal.

Price Risk Management: Hedging is the most common method of price risk management. It is strategy of offering price risk that is inherent in spot market by taking an equal but opposite position in the futures market. Futures markets are used as a mode by hedgers to protect their business from adverse price change. This could dent the profitability of their business. Hedging benefits who are involved in trading of commodities like farmers, processors, merchandisers, manufacturers, exporters, importers etc.

Import- Export competitiveness: The exporters can hedge their price risk and improve their competitiveness by making use of futures market. A majority of traders which are involved in physical trade internationally intend to buy forwards. The purchases made from the physical market might expose them to the risk of price risk resulting to losses. The existence of futures market would allow the exporters to hedge their proposed purchase by temporarily substituting for actual purchase till the time is ripe to buy in physical market. In the absence of futures market, it will be meticulous, time consuming and costly physical transactions.

Predictable Pricing: The demand for certain commodities is highly price elastic. The manufacturers have to ensure that the prices should be stable in order to protect their market share with the free entry of imports. Futures contracts will enable predictability in domestic prices. The manufacturers can, as a result, smooth out the influence of changes in their input prices very easily. With no futures market, the manufacturer can be caught between severe short-term price movements of oils and necessity to maintain price stability, which could only be possible through sufficient financial reserves that could otherwise be utilized for making other profitable investments.

Benefits for farmers/Agriculturalists: Price instability has a direct bearing on farmers in the absence of futures market. There would be no need to have large reserves to cover against unfavorable price fluctuations. This would reduce the risk premiums associated with the marketing or processing margins enabling more returns on produce. Storing more and being more active in the markets. The price information accessible to the farmers determines the extent to which traders/processors increase price to them. Since one of the objectives of futures exchange is to make available these prices as far as possible, it is very likely to benefit the farmers. Also, due to the time lag between planning and production, the market-determined price information disseminated by futures exchanges would be crucial for their production decisions.

Credit accessibility: The absence of proper risk management tools would attract the marketing and processing of commodities to high-risk exposure making it risky business activity to fund. Even a small movement in prices can eat up a huge proportion of capital owned by traders, at times making it virtually impossible to pay back the loan. There is a high degree of reluctance among banks to fund commodity traders, especially those who do not manage price risks. If in case they do, the interest rate is likely to be high and terms and conditions very stringent. This possesses a huge obstacle in the smooth functioning and competition of commodities market. Hedging, which is possible through futures markets, would cut down the discount rate in commodity lending.

Improved product quality: The existence of warehouses for facilitating delivery with grading facilities along with other related benefits provides a very strong reason to upgrade and enhance the quality of the commodity to grade that is acceptable by the exchange. It ensures uniform standardization of commodity trade, including the terms of quality standard: the quality certificates that are issued by the exchange-certified warehouses have the potential to become the norm for physical trade.

Basis of Opinion

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in paragraph of the Other Matters paragraph below is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Ind AS financial statements for the financial year ended 31st March, 2022. These matters were addressed in the context of our audit of the Consolidated Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the Consolidated Ind AS financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Consolidated Ind AS financial statements. The results of our audit procedures, including the

Page 1 of 8

procedures performed provide the basis for our audit opinion on the accompanying standalone Ind AS financial statements.

Key Audit Matters	How our audit addressed the key audit matter
<p>1. Revenue Recognition (Refer to the accounting policies in Note 2 to the Ind AS Financial statements)</p> <p>Revenue from the sale of goods is recognised upon the transfer of control of the goods to the customer. The Company uses a variety of shipment terms across its operating markets and this has an impact on the timing of revenue recognition. There is a risk that revenue could be recognised in the incorrect period for sales transactions occurring on and around the year-end, therefore revenue recognition has been identified as a key audit matter.</p>	<p>a) Our audit procedures included reading the Groups revenue recognition accounting policies to assess compliance with Ind AS 115 "Revenue from contracts with customers".</p> <p>b) We performed test of controls of management's process of recognizing the revenue from sales of goods with regard to the timing of the revenue recognition as per the sales terms with the customers.</p> <p>c) We performed test of details of the sales transactions testing based on a representative sampling of the sales orders to test that the related revenues and trade receivables are recorded taking into consideration the terms and conditions of the sale orders, including the shipping terms.</p> <p>d) We also performed audit procedures relating to revenue recognition by agreeing deliveries occurring around the year end to supporting documentation to establish that sales and corresponding trade receivables are properly recorded in the correct period.</p> <p>e) Assessing and testing the adequacy of presentation and disclosures.</p>

Other Information

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the Consolidated Ind AS financial statements and our auditor's report thereon.

Our opinion on the Consolidated Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated Ind AS financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate

accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Board of Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibility

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated Ind AS financial statements, including the disclosures, and whether the consolidated Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group of which we are the independent auditors and whose financial information we have audited, to express an opinion on the consolidated Ind AS financial statements. We are responsible

for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated Ind AS financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Ind AS financial statements for the financial year ended 31st March, 2022 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

THE ANNEXURE – "A" REFERRED TO IN OUR REPORT OF EVEN DATE TO THE MEMBERS OF SAKUMA EXPORTS LIMITED FOR THE YEAR ENDED 31ST MARCH, 2022. WE REPORT THAT:

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated Ind AS financial statement of the Company as of and for the year ended 31st March, 2022, We have audited the internal financial controls over financial reporting of SAKUMA EXPORTS LIMITED ("the Holding Company") as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding company are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and

expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

The Consolidated financial statements were authorised for issue in accordance with a resolution of the directors on 28th May, 2022.</p>
2.1	<p>Basis of preparation of consolidated financial statements</p> <p>The consolidated financial statements are prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and the other relevant provisions of the Act and rules thereunder.</p> <p>The Consolidated Financial Statements have been prepared under historical cost convention basis except :</p> <p>a. Certain financial assets and financial liabilities measured at fair value (refer accounting policies for financial instruments).</p> <p>b. Defined Benefits plans –Plan assets measured at Fair Value</p> <p>The accounting policies are applied consistently to all the periods presented in the financial statements except where a newly issued Accounting Standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.</p>
2.2	<p>Basis of Consolidation</p> <p>Subsidiaries include all the entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns through its involvement in the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity.</p> <p>The Consolidated financial statements of the Group incorporate the assets, liabilities, equity, income, expenses and cash flows of the company and its subsidiaries and are presented as those of a single economic entity. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:</p> <ul style="list-style-type: none"> - Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee) - Exposure, or rights, to variable returns from its involvement with the investee, and - the ability to use its power over the investee to affect its returns <p>Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:</p> <ul style="list-style-type: none"> - The contractual arrangement with the other vote holders of the investee - Rights arising from other contractual arrangements - The Group's voting rights and potential voting rights - The size of the Group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders <p>The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.</p> <p>Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies. The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on March 31.</p> <p>Consolidation Procedure</p> <ul style="list-style-type: none"> - Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date. - Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.

Sakuma Exports Limited Notes forming part of the Consolidated financial statements																	
	<p>- Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.</p> <p>Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.</p>																
2.3	<p>Fair Value Remeasurements:</p> <p>Fair value is the price that would be received to sell an asset or settle a liability in an ordinary transaction between market participants at the measurement date. The fair value of an asset or a liability is measured using the assumption that market participants would use when pricing an asset or liability acting in their best economic interest. The group used valuation techniques, which were appropriate in circumstances and for which sufficient data were available considering the expected loss/profit in case of financial assets or liabilities.</p>																
2.4	<p>Cash Flow Statements:</p> <p>Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the group are segregated.</p>																
2.5	<p>Property, Plant and Equipment</p> <p>Property, plant and equipment are stated at cost of acquisition less accumulated depreciation and impairment, if any. The cost comprises of purchase price, taxes, duties, freight and other incidental expenses directly attributable and related to acquisition of the concerned assets and are further adjusted by the amount of Input Credit of taxes availed wherever applicable.</p> <p>Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet date are disclosed as "Capital work-in-progress". An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of asset.</p> <p>The residual values are not more than 5% of the original cost of the Asset. The Property, plant and equipment's residual values and useful lives are reviewed at each Balance Sheet date and changes, if any, are treated as changes in accounting estimate.</p> <p>The group has applied principles of Ind AS 16 retrospectively from date of acquisition and considered the same as deemed cost in accordance with Ind AS 101 First Time adoption. On transition to Ind-AS, the group has elected to continue with the carrying value of intangible assets recognised as at April 01, 2016 measured as per IGAAP as the deemed cost of assets.</p> <p>The estimated useful lives considered of Property, Plant and Equipment of the group are as follows:</p> <table border="1"> <thead> <tr> <th>Block of Assets</th> <th>Useful Life</th> </tr> </thead> <tbody> <tr> <td>Wind Turbine</td> <td>22 Years</td> </tr> <tr> <td>Leasehold Land</td> <td>Shorter of lease period or estimated useful lives</td> </tr> <tr> <td>Plant and Equipment</td> <td>25 Years</td> </tr> <tr> <td>Furniture and Fixtures</td> <td>10 Years</td> </tr> <tr> <td>Computer software</td> <td>3 Years</td> </tr> <tr> <td>Vehicles</td> <td>8 Years</td> </tr> <tr> <td>Office Equipment</td> <td>5 Years</td> </tr> </tbody> </table>	Block of Assets	Useful Life	Wind Turbine	22 Years	Leasehold Land	Shorter of lease period or estimated useful lives	Plant and Equipment	25 Years	Furniture and Fixtures	10 Years	Computer software	3 Years	Vehicles	8 Years	Office Equipment	5 Years

Leasehold Land	Shorter of lease period or estimated useful lives																
Plant and Equipment	25 Years																
Furniture and Fixtures	10 Years																
Computer software	3 Years																
Vehicles	8 Years

2.6	<p>Intangible Assets</p> <p>Intangible assets acquired are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any.</p>																
2.7	<p>Depreciation and amortisation</p> <p>Depreciation of these assets commences when the assets are ready for their intended use. Items of property, plant and equipment are depreciated in a manner that amortizes the cost (or other amount substituted for cost) of the assets, less its residual value, over their useful lives as specified in Schedule II of the Companies Act, 2013 on a written down value basis except Lease Hold Land on which straight line basis depreciation is charged.</p>																
2.8	<p>Investments</p> <p>Investments, which are readily realisable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as non current investments.</p> <p>Long-term investments (excluding investment properties), are carried individually at cost less provision for diminution, other than temporary, in the value of such investments. Current investments are carried individually, at the lower of cost and fair value. Cost of investments includes acquisition charges such as brokerage, fees and duties.</p>																
2.9	<p>Leases</p> <p>At inception of Contract, the Company assesses whether the Contract is or contains a Lease. A Contract is, or contains, a lease if the Contract conveys the right As a Lessee</p> <p>1) Right of use assets</p> <p>The Group recognizes right of use assets at the commencement date of the lease. Right of use assets are measured at cost less any accumulated depreciation and impairment Losses and adjusted for any remeasurement of Lease Liabilities. The Cost of right to use assets include the amount of lease Liabilities recognized, initial direct cost incurred, Lease payments made at or before commencement date less any lease incentives received. Right of use assets are depreciated on a straight Line basis over the shorter of the lease term and the estimated useful lives of the assets.</p> <p>The Group presents right to use assets that do not meet the definition of Investment property in "Property, Plant and Equipment"</p>																

Sakuma Exports Limited Notes forming part of the Consolidated financial statements	
	<p>ii) Lease Liabilities</p> <p>At the Commencement date of the Lease, the Group recognizes Lease Liabilities measured at the present value of lease payments to be made over the Lease term. In Calculating the present Value of lease payments, the Group generally uses its incremental borrowing rate at the Lease Commencement date if the discount rate implicit in the lease is not readily determinable.</p> <p>Lease payments included in the measurement of the Lease Liability are made up of fixed payments (including in substance, fixed) and payments arising from options reasonably certain to be exercised. Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest expenses. It is re measured to reflect any reassessment or modification.</p> <p>The Group presents lease Liabilities under Financial Liabilities in the Balance sheet.</p> <p>The Group has elected to account for short term leases and Leases of Low Value assets using the exemption given under Ind AS 116, Leases. Instead of recognizing a right of use asset and Lease Liability, the payments in relation to these are recognized as an expense in the profit or loss on a straight Line basis over the Lease term or on another systematic basis if that basis is more representative of the pattern of the Group benefit.</p>
	<p>iii) Short-term leases and leases of low-value assets</p> <p>The Group applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.</p>
2.10	<p>Inventories</p> <p>Inventories are valued at the lower of cost and net realizable value. Cost of inventories have been computed to include all cost of purchase, and other cost incurred in bringing the goods to the present location and condition.</p> <p>The cost is determined using the First in First Out Basis (FIFO).</p>
2.11	<p>Cash & Cash Equivalents</p> <p>The group considers all highly liquid financial instruments, which are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.</p>
2.12	<p>Income Tax</p> <p>Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred tax are recognized in the Statement of Profit and Loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity, respectively.</p> <p>Current Tax</p> <p>Current income tax for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the taxable income for that period. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the balance sheet date.</p> <p>Current tax assets and liabilities are offset only if, the group:</p> <ul style="list-style-type: none"> - has a legally enforceable right to set off the recognized amounts; and - Intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. <p>Deferred tax</p> <p>Deferred tax is recognized for the future tax consequences of deductible temporary differences between the carrying values of assets and liabilities and their respective tax bases at the reporting date, using the tax rates and laws that are enacted or substantively enacted as on reporting date.</p> <p>Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses and credits can be utilized.</p> <p>Deferred tax assets and liabilities are offset only if:</p> <ul style="list-style-type: none"> - Entity has a legally enforceable right to set off current tax assets against current tax liabilities; and - Deferred tax assets and the deferred tax liabilities relate to the income taxes levied by the same taxation authority.
2.13	<p>Financial Assets</p> <p>(a) Initial recognition and measurement</p> <p>On initial recognition, a financial asset is recognised at fair value. In case of Financial assets which are recognised at fair value through profit and loss (FVTPL), its transaction cost are recognised in the statement of profit and loss. In other cases, the transaction cost are attributed to the acquisition value of the financial asset.</p> <p>(b) Subsequent measurement</p> <p>Subsequent measurement is determined with reference to the classification of the respective financial assets. The group classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.</p> <p>(i) Debt Instruments</p> <p>A 'debt instrument' is measured at the amortised cost if both the following conditions are met:</p> <ul style="list-style-type: none"> - The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and - Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding. <p>After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the Statement of Profit & Loss. The losses arising from impairment are recognised in the Statement of Profit & Loss.</p>

	<p>(ia) Debt Instruments at Fair value through Other Comprehensive Income (FVOCI)</p> <p>A 'debt instrument' is measured at the fair value through other comprehensive income if both the following conditions are met:</p> <ul style="list-style-type: none"> - The asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets - Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding. <p>After initial measurement, these assets are subsequently measured at fair value. Interest income under effective interest method, foreign exchange gains and losses and impairment are recognised in the Statement of Profit & Loss. Other net gains and losses are recognised in other comprehensive income.</p> <p>(ib) Debt Instruments at Fair value through profit or loss (FVTPL)</p> <p>Fair value through profit or loss is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorisation as at amortised cost or as FVOCI, is classified as at FVTPL.</p>
	<p>(ii) Equity Instruments</p> <p>All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the group decides to classify the same either as at FVOCI or FVTPL. The group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.</p> <p>For equity instruments classified as FVOCI, all fair value changes on the instrument, excluding dividends, are recognized in other comprehensive income (OCI). Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit & Loss.</p>
	<p>(c) Derecognition</p> <p>A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the group's Balance Sheet) when:</p> <ul style="list-style-type: none"> (i) The rights to receive cash flows from the asset have expired, or (ii) The group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either: <ul style="list-style-type: none"> - The group has transferred substantially all the risks and rewards of the asset, or - The group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.
	<p>(d) Impairment of financial assets</p> <p>The group measures the expected credit loss associated with its assets based on historical trend, industry practices and the Business environment in which the entity operates or any other appropriate basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk.</p> <p>(e) Income Recognition</p> <p>Interest income from debt instruments is recognised using the effective interest rate method.</p>
2.14	<p>Financial Liabilities</p> <p>(a) Initial recognition and measurement</p> <p>All financial liabilities are recognised initially at fair value net of transaction costs that are attributable to the respective liabilities.</p> <p>(b) Subsequent measurement</p> <p>Subsequent measurement is determined with reference to the classification of the respective financial liabilities. The measurement of Financial liabilities depends on their classification, as described below:</p>
	<p>(i) Financial Liabilities at fair value through profit or loss (FVTPL)</p> <p>A financial liability is classified as at fair value through profit or loss if it is classified as held-for-trading or is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and changes therein, including any interest expense, are recognised in Statement of Profit & Loss.</p> <p>(ii) Financial Liabilities measured at amortised cost</p> <p>After initial recognition, financial liabilities other than those which are classified as fair value through profit or loss are subsequently measured at amortised cost using the effective interest rate method ("EIR").</p> <p>Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit & Loss.</p> <p>(c) Derecognition</p> <p>A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit & Loss.</p>
2.15	<p>Offsetting of financial Instruments</p> <p>Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.</p>

Notes forming part of the Consolidated financial statements	
2.16	<p>Fair Value of Financial Instruments</p> <p>In determining the fair value of its financial instruments, the group uses following hierarchy and assumptions that are based on market conditions and risks existing at each reporting date.</p> <p>Fair Value Hierarchy</p> <p>All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:</p> <ul style="list-style-type: none"> - Level 1 : Quoted (unadjusted) market prices in active markets for identical assets or liabilities - Level 2 : Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable - Level 3 : Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable <p>For assets and liabilities that are recognized in the financial statements on a recurring basis, the group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.</p>
2.17	<p>Classification of Assets and Liabilities as Current and Non-Current:</p> <p>All assets and liabilities are classified as current or non-current as per the group's normal operating cycle (determined at 12 months) and other criteria set out in Schedule III of the Act.</p>
2.18	<p>Revenue recognition</p> <p>A. Revenue from contract with customer</p> <p>Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group has generally concluded that it is the principal in its revenue arrangements, because it typically controls the goods or services before transferring them to the customer.</p> <p>(a) Sale of Goods Revenue from sale of goods is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the goods</p> <p>(b) Variable Consideration If the consideration in a contract includes a variable amount, the Group estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved. Some contracts for the sale provide customers with discounts. The discounts give rise to variable consideration.</p> <p>(c) Discounts Discounts includes target and growth rebates, price reductions, incentives to customers or retailers. To estimate the amount of discount, the Group applies accumulated experience using the most likely method. The Group determines that the estimates of discounts are not constrained based on its historical experience, business forecast and the current economic conditions. The Group then applies the requirements on constraining estimates of variable consideration and recognises a refund liability for the expected discount. No element of financing is deemed present as the sales are made with credit terms largely ranging between 7 days to 120 days.</p> <p>(d) Contract Balances</p> <p>(i) Contract assets A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.</p> <p>(ii) Trade receivables A receivable represents the Group's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).</p> <p>(iii) Contract liabilities A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Group performs under the contract.</p> <p>(iv) Refund liabilities A refund liability is the obligation to refund some or all of the consideration received (or receivable) from the customer and is measured at the amount the Group ultimately expects it will have to return to the customer. The Group updates its estimates of refund liabilities (and the corresponding change in the transaction price) at the end of each reporting period.</p> <p>2.18 (B) Measurement of revenue</p> <p>Revenue is measured at the fair value of the consideration received or receivable. Amount disclosed as revenue are inclusive of excise duty and net of, any trade discounts, volume rebates and any taxes or duties collected on behalf of the Government which are levied on sales such as sales tax, value added tax, goods and service tax (GST) etc. Revenue is recorded net of Duties and Taxes. Discounts given include rebates, price reductions and other incentives given to customers. The Company bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement. No element of financing is deemed present as sales are made with a credit term which is consistent with market practice.</p>

Sakuma Exports Limited Notes forming part of the Consolidated financial statements	
2.18	(C) Other Income <p>Interest income is recognized on time proportion basis taking into account the amount outstanding and the rate applicable.</p> <p>Dividends are recognized in the Statement of Profit and Loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.</p>
2.19	Foreign currency Translations (a) Functional and presentation currency <p>The financial statements are presented in Indian rupee (INR), which is group's functional and presentation currency.</p> (b) Transactions and Balances <p>Transactions in foreign currencies are recorded at the exchange rate prevailing on the date of transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency closing rates of exchange at the reporting date.</p> (c) Monetary Items <p>Transactions denominated in foreign currency are normally accounted for at the exchange rate prevailing at the time of transaction.</p> <ul style="list-style-type: none"> - Monetary assets (including loans to subsidiaries) and Liabilities in foreign currency transactions remaining unsettled at the end of the year (other than forward contract transactions) are translated at the year-end rates and the corresponding effect is given to the respective account. - Exchange differences arising on account of fluctuations in the rate of exchange are recognized in the statement of Profit & Loss. - Exchange rate difference arising on account of conversion/translation of liabilities incurred for acquisition of Fixed Assets is recognized in the Statement of Profit & Loss. (d) Non - Monetary Items <p>Non-monetary items that are measured in terms of historical cost in a foreign currency are recorded using the exchange rates at the date of the transaction.</p>
2.20	Employee benefits <p>Employee benefits include provident fund, gratuity fund and compensated absences.</p> (a) Defined contribution plans <p>The group's contribution to provident fund are considered as defined contribution plans and are charged as an expense as they fall due based on the amount of contribution required to be made.</p> (b) Defined benefit plans <p>Defined Benefit Plan i.e. gratuity is recognised on accrual basis based on the actuarial valuation in accordance with the requirement of Ind AS 19.</p> <p>Payment for present liability of future payment of gratuity is being made to approve gratuity fund, which fully covers the same under Cash Accumulation Policy and Debt fund of the PNB Met Life Insurance group Ltd. However, any deficit in plan assets managed by PNB Met Life Insurance as compared to the liability on the basis of an independent actuarial valuation is recognized as a liability. The liability or asset recognized in the Balance Sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method in conformity with the principles and manner of computation specified in Ind AS 19. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit and Loss.</p> (c) Privilege leave entitlements <p>Privilege leave entitlements are recognized as a liability, in the calendar year of rendering of service, as per the rules of the group. As accumulated leave can be availed and/or encashed at any time during the tenure of employment, subject to terms and conditions of the scheme, the liability is recognized on the basis of an actual working based on balance days of accumulated leave.</p>

2.21	<p>Borrowing costs</p> <p>Borrowing cost directly attributable to development of qualifying assets are capitalized till the date qualifying assets is ready for put to use for its intended purpose as part of cost of that assets. Other borrowing cost are recognised as expenses in the period in which they are incurred.</p>
2.22	<p>Segment reporting</p> <p>Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.</p>
2.23	<p>Earnings per share</p> <p>The basic earnings per share is computed by dividing the net profit attributable to equity shareholders for the period by the weighted average number of equity shares outstanding during the period. The number of shares used in computing diluted earnings per share comprises the weighted average shares considered for deriving basic earnings per share, and also the weighted average number of equity shares which could be issued on the conversion of all dilutive potential equity shares.</p>
2.24	<p>Impairment of Non-financial assets</p> <p>The carrying values of assets/cash generating unit at each Balance Sheet date are reviewed for impairment. If any indication of impairment exists, the recoverable amount of such assets is estimated and impairment is recognized, if the carrying amount of these assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and therein value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor. When there is indication than an impairment loss recognized for an asset in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognized in the statement of profit and loss except in case of revalued assets.</p>
2.25	<p>Provisions</p> <p>The group recognizes provisions when a present obligation (legal or constructive) as a result of a past event exists and it is probable that an outflow of resources embodying economic benefits will be required to settle such obligation and the amount of such obligation can be reliably estimated. If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.</p>
2.26	<p>Contingent Liabilities</p> <p>A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of such obligation cannot be measured reliably. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources embodying economic benefits is remote, no provision or disclosure is made.</p>
2.27	<p>Significant accounting judgments, estimates and assumptions:</p> <p>The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Company's accounting policies. The estimates and judgements involves a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes.</p> <p>Critical estimates and judgements The areas involving critical estimates or judgements are:</p> <ol style="list-style-type: none"> Estimation of current tax expenses and payable Estimated useful life of Intangible assets Estimation of defined benefit obligation Estimation of Provisions and Contingencies Estimation of Incremental Borrowing rate -Leases

Note No. 35: Operating Leases

(i) The Company's lease asset primarily consist of leases for land and buildings for offices. Effective April 1, 2019, the Company adopted Ind AS 116 "Leases" and applied the standard to all lease contracts existing on April 1, 2019 using the modified retrospective method. Consequently, the Company recorded the lease liability at the present value of the remaining lease payments discounted at the incremental borrowing rate as on the date of transition and has measured right of use asset at an amount equal to lease liability adjusted for any related prepaid and accrued lease payments previously recognised.

(ii) The following is the summary of practical expedients elected on initial application:

- (a) Applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with a similar end date
- (b) Applied the exemption not to recognize right-of-use assets and liabilities for leases with less than 12 months of lease term on the date of initial application
- (c) Excluded the initial direct costs from the measurement of the right-of-use asset at the date of initial application
- (d) Applied the practical expedient by not reassessing whether a contract is, or contains, a lease at the date of initial application, instead applied the standards only to contracts that were previously identified as leases under Ind AS 17
- (e) Used hindsight in determining the lease term where the contract contained options to extend or terminate the lease

(h) The principal assumptions used in determining gratuity and leave encashment for the group's plan are shown below:

Description of Risk Exposures -

Valuations are performed on certain basic set of predetermined assumptions and other regulatory frame work which may vary overtime. Thus, the group is exposed to various risks in providing the above gratuity benefit which are as follows:

Interest Rate risk

The plan exposes the group to the risk of all in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of the liability (as shown in financial statements).

Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.

Regulatory Risk

Gratuity benefit is paid in accordance with the requirements of the Payment of Gratuity Act, 1972 (as amended from time to time). There is a risk of change in regulations requiring higher gratuity payouts (e.g. Increase in the maximum limit on gratuity of ₹ 20 lakhs).

During the reporting period ended March 31, 2022 and March 31, 2021, there have been no transfers between Level 1 and Level 2 fair value measurements.

The management assessed that fair values of cash and cash equivalents, trade receivables, trade payables less than 1 year, bank overdrafts and other current financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

45 Financial Risk Management

Risk Management Framework

The Company's principal financial liabilities, other than derivatives, comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade and other receivables, cash and cash equivalents that derive directly from its operations. The Company also enters into derivative transactions.

The Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. All derivative activities for risk management purposes are carried out by specialist teams that have the appropriate skills, experience and supervision. The Board of Directors through its risk management committee reviews and agrees policies for managing each of these risks, which are summarised below.

The Company has exposure to the following risks arising from financial instruments:

- (i) Market Risk
- (ii) Commodity Price Risk
- (iii) Credit Risk
- (iv) Liquidity Risk
- (v) Excessive risk Concentration

(i) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk. Financial Instruments affected by market risk include loans and borrowings, deposits, investments and derivative financial instruments.

The sensitivity analysis in the following sections relate to the position as at March 31, 2022 and March 31, 2021

The sensitivity analysis have been prepared on the basis that the amount of net debt, the ratio of fixed to floating interest rates of the debt and derivatives and the proportion of financial instruments in foreign currencies are all constant and on the basis of hedge designations in place at March 31, 2022.

The following assumptions have been made in calculating the sensitivity analysis:

The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at March 31, 2022 and March 31, 2021 including the effect of hedge accounting.

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates.

The Company manages its interest rate risk by having a short term working capital loans which are reviewed on yearly basis. The following table provides a break-up of Company's fixed and floating rate borrowing:

Particulars	₹ In lakhs	
	As at March 31, 2022	As at March 31, 2021
Fixed rate borrowings	1,642.27	290.78
Floating rate borrowings	6,911.14	206.79
Total Borrowings	8,553.41	497.56

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected, after the impact of hedge accounting. With all other

Particulars	₹ in lakhs	
	Increase / decrease in basis points	Effect on profit before tax
March 31, 2022		
6911.14	+/- 100 bps	-69.11/69.11
March 31, 2021		
206.79	+/- 100 bps	-0.21/0.21

Note: The above analysis is prepared for floating rate liabilities assuming the amount of the Liability outstanding at the end of the reporting Period was outstanding for the whole year.

The assumed movement in basis points for the Interest rate sensitivity analysis is based on the currently observable market environment, showing a significantly higher volatility than in prior years

Derivatives designated as hedging instruments

The Company uses derivative financial instruments such as foreign currency forward contracts to hedge foreign currency risk arising from future transactions in respect of which firm commitments are made or which are highly probable forecast transactions. All these instruments are designated as hedging instruments and the necessary documentation for the same is made as per Ind AS 109.

Cash flow hedges - Foreign currency Risk

Foreign exchange forward contracts measured at fair value through OCI are designated as hedging instruments in cash flow hedges of recognized purchase payables, committed future purchases, recognized sales receivables, forecast sales in US dollar. The forecast sales transactions are highly probable.

The foreign exchange forward contract balances vary with the level of expected foreign currency sales and purchases and changes in foreign exchange forward rates.

Unhedged Foreign Currency Exposure	(Amount in USD in lakhs)	
	As at March 31, 2022	As at March 31, 2021
FCY Receivables	1,004.92	358.41
FCY Payables	(167.50)	(16.70)
Net FCY Receivables / (Payables)	837.42	341.71
Financial Hedge	837.39	341.76
Unhedged Foreign Currency Exposure	0.03	(0.05)

Foreign currency sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in USD rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities.

Particulars	Change in Currency	₹ in lakhs
		Effect on profit before tax
March 31, 2022		
Recognized net receivables / (payables)	+ 1 / - 1	+ 0.03 / - 0.03
March 31, 2021		
Recognized net receivables / (payables)	+ 1 / - 1	+ 0.05 / - 0.05

In management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk because the exposure at the end of the reporting period does not reflect the exposure during the year.

(ii) Commodity Price Risk

The Company is affected by the price volatility of certain commodities. Its operating activities require the ongoing purchase of oil and other traded commodities. Due to the significantly increased volatility of the prices of the commodities, the Company also entered into various derivative contracts.

The Company's Board of Directors has developed and enacted a risk management strategy regarding commodity price risk and its mitigation.

(iii) Credit Risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

Trade receivables

Customer credit risk is managed by the management subject to the Company's established policy, procedures and control relating to customer credit risk management. Trade receivables are non-interest bearing. Generally the company operates on advance against delivery order principle except for merchant trade transactions wherein the sales is executed on credit terms up to six months. Also, Export customers are secured against Letter of Credit, bank guarantees and payments against documents. Credit risk on receivables is also mitigated by securing the same against security deposit, letter of credit and advance payment.

An impairment analysis is performed at each reporting date on an individual basis for major clients. The Company has no concentration of credit risk as the customer base is widely distributed both economically and geographically.

More than 365 days	450.34	486.46
	43,474.54	26,900.39

Other financial assets and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are reviewed by the Company's Board of Directors on an annual basis, and may be updated throughout the year subject to approval as per the investment policy. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

(iv) Liquidity Risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time, or at a reasonable price. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. The Company prepares cash flow on a daily basis to monitor liquidity. Any shortfall is funded out of short term loans. Any surplus is invested in liquid mutual funds and short term bank deposits. The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments.

(v) Excessive risk Concentration

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Company's performance to developments affecting a particular industry.

In order to avoid excessive concentrations of risk, the Group's policies and procedures include specific guidelines to focus on the maintenance of a diversified portfolio. Identified concentrations of credit risks are controlled and managed accordingly. Selective hedging is used within the Group to manage risk concentrations at both the relationship and industry levels.

Note-46 Other Accompanying Notes

1. Recent Pronouncements:

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, as below.

Ind AS 16 – Proceeds before Intended use

The amendments mainly prohibit an entity from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, an entity will recognise such sales proceeds and related cost in profit or loss. The Company does not expect the amendments to have any impact in its recognition of its property, plant and equipment in its financial statements.

Ind AS 37 – Onerous Contracts - Costs of Fulfilling a Contract

The amendments specify that that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts. The amendment is essentially a clarification and the Company does not expect the amendment to have any significant impact in its financial statements.

The Holding Company or its Subsidiary Company incorporated in India has not received any fund from any party(s) (Funding Party) with the understanding that the Company shall whether, directly or indirectly lend or invest in other persons or entities identified by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

COVID 19 Pandemic:

The current outbreak of COVID-19 pandemic has adversely impacted the global economy. The World Health Organization declared the outbreak of COVID-19 as a public health emergency of international concern on January 30, 2020 and a pandemic on March 11, 2020. The Government of India announced a nation-wide lockdown on March 24, 2020 and imposed several restrictions. Subsequently in view of the second wave of COVID-19, various state governments had imposed a complete lockdown on or about the beginning of May, 2021. However, as we are engaged in import/export and trading of agricultural produce and commodities which are 'essential goods', our operations were not shut down during this pandemic. However, due to limited availability of labour, logistics and supply chain constraints, our business was impacted during the initial period of the lockdown. We continued our operations and business activities after making arrangements to meet the government's requirements on sanitization, people movement and social distancing.

(ix) *Sakuma Exports Limited vs. DCM Shriram Limited vs. - O.M.P (Comm) No. 431 of 2022*

Our Company has filed an appeal bearing number O.M.P (Comm) No. 431 of 2022 before the Hon'ble High Court of Delhi against DCM Shriram Limited ("DCM") challenging the award passed by Hon'ble A.P.S. Ahluwalia, Senior Advocate, Sole Arbitrator on July 7, 2022 ("**Impugned Award**") in the arbitration proceedings between DCM and our Company for recovery of loss/ damages to DCM due to unilateral termination of an agreement between DCM and our Company. DCM entered into an agreement with our Company for supply of 7,950 MT Indian white sugar which our Company intended lift from DCM between March 2, 2020 and April 4, 2020 to export to its buyer from Afghanistan. However, in wake of the Covid-19 pandemic, on February 29, 2020, the Pakistan Government declared a complete closure of the Pakistan-Afghanistan border at Chaman for 2 weeks which was further extended on time to time basis. As our Company was purchasing Indian white sugar for export to Afghanistan, the complete closure of Pakistan-Afghanistan border made it impossible for our Company to perform the contract and thus our Company cancelled the agreement immediately i.e. on March 2, 2022 on the grounds of force majeure. DCM filed this arbitration case for the recovery of loss/damages of ₹318.00 Lakhs along with a future interest at the rate of 18% per annum due to alleged unilateral termination of the agreement. The Impugned Award of Rs. 3.18 Crores in favour of DCM with a future interest at the rate of 6% p.a. was passed against our Company along with the cost and fees of the arbitral tribunal. Hence, our Company has filed this appeal praying for the Impugned Award to be set aside. The matter is presently pending.

(i) *Rai Bahadur Narain Singh Sugar Mill Limited vs. Saurabh Malhotra and others - FIR bearing no. 0343/2020*

RBNS has filed an FIR bearing number 0343 at the Haridwar Police Station under section 406 of the Indian Penal Code, 1860 against the Director of our Company, Saurabh Malhotra and others. Our Company entered into an agreement with RBNS to purchase 12,500 MT of sugar at the rate of ₹18,800 per MT sugar from RBNS for export purposes only (which would have entitled RBNS to a subsidy of ₹1,306.00 Lakhs from the Government of India). However, RBNS alleged that our Company did not export the sugar, which was purchased solely for the purpose of exports in terms of the agreement between our Company and RBNS, but our Company instead sold the sugar so procured in the open market as our company failed to produce the requisite documents relating to the export to RBNS. RBNS further alleged in the FIR that they had incurred a loss of more than ₹1,600.00 Lakhs. Saurabh Malhotra and the others named in the FIR subsequently filed a writ petition with the Hon'ble High Court of Uttarakhand at Nainital bearing writ petition (Criminal) No. 1430/2020 for the quashing of the FIR on the grounds that our Company had exported the sugar so purchased from RBNS

in terms of their agreement and that that the requisite documents relating to the export were duly provided to the investigating officer under the FIR except the bank realization certificate which could not have been produced due to the fact that certain payments were yet to be realized from foreign buyers (delayed due to the restrictions imposed due to COVID-19). However, the Hon'ble High Court of Uttarakhand at Nainital passed an interim order for interim stay granted against coercive action or measures against Saurabh Malhotra and the others named in the FIR which it later vacated. Saurabh Malhotra and the others named in the FIR then preferred a Special Leave to Appeal (Crl.) bearing No. 7724/2021 under Article 136 of the Constitution of India before the Hon'ble Supreme Court of India challenging the interim order passed by the Hon'ble High Court of Uttarakhand at Nainital vacating the interim stay granting against coercive action or measures. The Hon'ble Supreme Court stayed the impugned order passed by the Hon'ble High Court of Uttarakhand at Nainital vacating the interim stay granting against coercive action or measures. The matter is presently pending.

(iii) *Deepak Jain of Silky Oils vs. Saurabh Malhotra, Radhe Shyam, Om Parkash Singal and others - Complaint no. 26/2016*

Deepak Jain of Silky Oils ("**Silky Oils**") has filed an FIR bearing number 26/2016 at the Bahorapur Police Station under section 406, 409, 420, 467, 468 and 471 of the Indian Penal Code, 1860 against certain of our Directors. Our Company entered into a sale contract with Silky Oils on June 25, 2015 for the sale of 500 MT crude de-gummed soybean oil against which Silky Oils paid our Company an advance of ₹250.91 Lakhs. In terms of the sale contract, Silky Oils were supposed to take the delivery of the 500 MT crude de-gummed soybean oil by October 15, 2015. However, they only took the delivery of 467 MT crude de-gummed soybean oil and failed to pick up the balance 33 MT crude de-gummed soybean oil in the due course of time despite several reminders from our Company. Thus, our Company, in light of the breach of contract by Silky Oils, sold the balance 33 MT crude de-gummed soybean oil to a third party in terms of the sale contract. Silky Oils alleged that our Company had wrongfully sold the 33 MT of crude de-gummed soybean oil with an intention to cheat Silky Oils and hence, filed this FIR. The matter is being investigated and is presently pending.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. The Union Cabinet, as provided in the Cabinet Press Release dated May 24, 2017, has given its approval for phasing out the FIPB. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment (“**FDI**”) and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the Department of Industrial Policy and Promotion) (“**DPIIT**”), Ministry of Finance, Department of Economic Affairs, FIPB section, through a memorandum dated June 5, 2017, has notified the specific ministries handling relevant sectors.

The Government has, from time to time, made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated FDI Policy Circular of 2020 (“**FDI Policy**”) by way of circular bearing number DPIIT file number 5(2)/2020-FDI Policy dated October 15, 2020, which with effect from October 15, 2020, consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict between FEMA and such policy pronouncements, FEMA prevails.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company fall under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI.

No investment under the FDI route (i.e., any investment which would result in the investor holding 10% or more of the fully diluted paid-up equity share capital of our Company or any FDI investment for which an approval from the government was taken in the past) will be allowed in the Issue unless such application is accompanied with necessary approval or covered under a pre-existing approval from the government. It will be the sole responsibility of the investors to ensure that the necessary approval or the pre-existing approval from the government is valid in order to make any investment in the Issue. The Lead Manager and our Company will not be responsible for any allotments made by relying on such approvals.

Please also note that pursuant to Circular no. 14 dated September 16, 2003 issued by RBI, Overseas Corporate Bodies (OCBs) have been derecognized as an eligible class of investors and RBI has subsequently issued the Foreign Exchange Management (Withdrawal of General Permission to Overseas Corporate Bodies (OCBs)) Regulations, 2003. Any Investor being an OCB is required not to be under the adverse notice of RBI and in order to apply for this issue as a incorporated non-resident must do so in accordance with the FDI Circular 2020 and Foreign Exchange Management (Non-Debt Instrument) Rules, 2019. Further, while investing in the Issue, the Investors are deemed to have obtained the necessary approvals, as required, under applicable laws and the obligation to obtain such approvals shall be upon the Investors. Our Company shall not be under an obligation to obtain any approval under any of the applicable laws on behalf of the Investors and shall not be liable in case of failure on part of the Investors to obtain such approvals.

The above information is given for the benefit of the Applicants / Investors. Our Company and the Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Letter of Offer. Investors are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.
